Chicago Had Hands Full Yesterday.

Architect Ayars and Wife Fired Upon from Ambush on Returning Home.

Marble Workers Chased By the Police After Attempted Murder.

"Red" Graves in Jail and Habeas Corpus Refused.

CHICAGO, July 2.—[Exclusive Dispatch.] Labor sluggers sprang into prominence, again today. Among the events in which they are concerned are the following:

A mysterious attempt to assassinate Architect Charles G. Ayars of Evanston, who has had trouble with the unions.

A riot at Monroe and Clark streets, in which guns were drawn and members of rival unions attacked each other.

The decision of the Appellate Court that the Franklin Union No. 4 sluggers, sentenced by Judge Holdom, must go to jail.

An attempt to secure the release of "Red" Graves, the slinger held for murder of a non-union foreman.

THE AYARS CASE FIRED UPON.

For two years Architect Ayars and Contractor Thomas Currey of Evanston, working together, have defied the Carpenters' Union, and during that time attempts have been made to burn every building they have undertaken. Early this morning, Ayars and his wife were fired at from an automobile trip.

As they drove up to their house, Mrs. Ayars remarked that she thought she saw moving figures in the partially-finished house which her husband and Currey are putting up next door. Before they reached the steps they decided that she had been mistaken, and as they were walking up the steps each reached down to pick up a couple of porch pillows which had been left there. Their action in reaching down evidently alarmed two men prowling around the house next door, and without warning the two thugs opened fire with revolvers upon the unsuspecting architect and his wife.

Mrs. Ayars fainted and fell on the porch. Ayars, after dragging her inside the door, ran out in pursuit of the two men, but he was soon outdistanced.

CONTRACTOR'S TROUBLES.

Contractor Currey's troubles with the carpenters began two years ago when a walking delegate invaded his office and ordered him to reduce the working hours of his employees. Currey armed himself, and the following day, when the business agent of the union appeared to see if his order was going to be obeyed, Currey produced the weapon and ordered the man off the premises. When the delegate tried to argue the matter with the contractor, Currey pointed the pistol at his head and told him he would count five and shoot. The agent retreated, but not quickly enough to suit the contractor, who fired, but at the feet instead of the head of the walking delegate.

That was the last time Currey was bothered with walking delegates, but the union took a new way of fighting the unmanageable boss. Building after building for which Currey was contractor, under the drawings of Architect Ayars, was set on fire and partially burned. Three fires have taken place within the last two months.

CHASE THROUGH THE STREETS.

After an attempt to shoot a member of a rival Marble Workers' Union in front of the new American Trust and Savings Bank Building, at Monroe and Clark streets, today, Patrick and Joseph McCullough were chased through the downtown streets by the police.

Through crowds the fugitives ran, and at Madison and Clark streets a citizen who endeavored to stop Patrick was knocked down. Considerable excitement ensued. Patrick McCullough was captured in the Brevoort House alley. He was only saved from injury by the police.

"RED" GRAVES IN JAIL.

Attorneys for "Red" Graves were unsuccessful in securing his release by habeas corpus and the slinger was taken to the County Jail and turned over to the Sheriff. Graves, who was arrested in Cleveland, is charged with the murder of Harry Ferris six years ago. In addition to the jail sentence imposed upon four members of the notorious Franklin Union of Pressed-Air workers, two alleged sluggers will have to pay fines. Two alleged sluggers were held to the grand jury today, by Justice Prindiville. They are charged with attacking non-union printers.

PALESTINE FIRST FOR THE JEWS.

DR. MENDES DISCOURAGES THE TERRITORIAL MOVEMENT.

Zionist Activities and Relief Work Must Be Directed Toward the Holy Land, According to Him—Exploitation of Resources Recommended by the Present Commission.

BY THE ASSOCIATED PRESS.—P.M. TANNERSVILLE (N. Y.) July 2.—A letter from Dr. Max Nordau of Paris containing a strong appeal for the support of the already established Jewish institutions in Palestine aroused much enthusiasm at today's session of the Federation of American Zionists here.

Much interest, also, was shown in a communication from Prof. Otto Warburg, head of the Palestine Commission, which pointed out the political, industrial and agricultural possibilities of Palestine. Particular stress was laid upon the favorable attitude now evinced toward Jewish colonization in Palestine by the Turkish government. The commission recommended the organization of commercial, industrial and agricultural commissions for the exploitation of the resources of Palestine.

Dr. H. P. Mendes, president of the American branch of the Jewish Territorial Association, startled the convention by declaring that the report of the commission, which comes at a critical moment for Zionism, proved that there is no need for any other organization to undertake relief work for Jews, or for other activities elsewhere. Palestine must come first, he said, and only when activities are impossible in Palestine need activities or relief work be undertaken elsewhere.

His statement was regarded by the convention as notice for the early dissolution of the territorial movement, which is an offshoot of Zionism, and aims to secure a grant of land for a Jewish autonomous state anywhere in the world where the right to establish such a state may be obtained.

POPGUN CYCLES' ENDURANCE RUN.

MOTOR-WHEEL FADDISTS TRYING TO PUNCTURE SPACE.

They Shoot Two Hundred and Twenty-eight Miles Up the Hudson River Road in Remarkable Time, Considering the Going. Rochester Their Target Today.

BY DIRECT WIRE TO THE TIMES. LITTLE FALLS (N. Y.) July 2.—[Exclusive Dispatch.] Thirty-three of fifty-one competitors in the fifth annual endurance contest of the Federation of American Motorcyclists arrived here tonight in a run of 228 miles from New York. Tomorrow there will be a run of 161 miles to Rochester, where the motorcycle championships will take place on the three succeeding days.

The start was made in New York City at 4 o'clock this morning, and although the scheduled time for arrival in Albany was 2:11 o'clock this afternoon, many of the riders were there by 2 o'clock. They reported the riding along the Hudson River road to be very heavy, owing to recent rains. While some minor repairs to machines were necessary, none of the contestants encountered serious mishaps.

In view of the bad condition of roads and the distance traveled, the results of the first day's run is considered remarkable.

SUING FOR DIVORCE.

Mrs. Alice H. Ripley Ellis, Daughter of the Santa Fe President, Applies to the Courts.

CHICAGO, July 2.—[Exclusive Dispatch.] Mrs. Alice H. Ripley Ellis, daughter of E. P. Ripley, president of the Santa Fe Railroad Company, and wife of Jerome A. Ellis, well-known clubman, automobilist, capitalist and dealer in railway supplies and automobiles, has filed suit for divorce on grounds which have not yet been divulged.

The news of the suit caused little surprise in club circles, where some interesting adventures of the automobilist are the subject of light gossip. Moonlight automobile parties, with Ellis as host, were referred to with whispered comments as to their brilliancy.

FOREIGN SAILORS BARRED.

SEATTLE, July 2.—Longshoremen yesterday passed resolutions against the employment of Asiatics as sailors, and agreed not to work on vessels manned by Chinese or Japanese either partially or entirely. This action is considered to have a far-reaching effect on the sailors' lookout and one which will be adverse to the ship-owners.

COMING IN COFFINS.

Dead Americans to Be Sent Home.

Salisbury Embalmers Performing Ghoulish Business With Dispatch.

Solemn Monotony With Little Evidence Characterizes Official Inquest.

Responsibility for the Wreck Not Placed—Board of Trade to Investigate.

BY THE ASSOCIATED PRESS.—P.M. SALISBURY (England) July 2.—The embalmers are busy, tonight, and by tomorrow the majority of the bodies of the score of Americans who lost their lives in the wreck of the Plymouth express, Sunday morning, will be prepared for their return for burial in the land they left so recently in the fullness of life and hope.

Frederick H. Coslett's body already has been forwarded to London, on its way to America.

The inquest, today, was a prolonged and tedious formality, which failed utterly to give any idea of the cause of the accident. No questions on that point were asked and the subject seemed to be avoided—a strange proceeding to the many Americans present, but which is thought to be due to the queer formalism that seems characteristic of such cases in this country.

The proceedings were solemn, and monotonous, so much so that spectators surprised a juror by asking what necessity there was to adjourn the inquest for a fortnight. To this no answer was given. The delay is believed to be due to the declared intention of the Board of Trade to institute an investigation.

It seems strange to Americans, that the inquest at Salisbury today was held in the City Hall. The American Consul at Southampton, Albert W. Swalm, is looking after the interests of the Americans. Immediately after the jury had been sworn, they proceeded to the railroad station to view the bodies. Reporters were not allowed to accompany them.

When the jury returned, the Coroner announced that only evidence regarding the identification of the bodies would be taken, and that the inquest would then be adjourned for a fortnight.

NAMELESS FEARS FOLLOWED SENTELLS.

OHIO GETS BUSY WITH THE TRUSTS.

BY DIRECT WIRE TO THE TIMES. NEW YORK, July 2.—[Exclusive Dispatch.] Irresistible forebodings that some grave calamity was hovering over them made such an impression upon the family of Edward W. Sentell, No. 271 Cedar street, Brooklyn, that each member of the family prepared a will only a short time before the steamship New York sailed.

Mysteriously, the same premonition of evil possessed the minds of a large number of friends who accompanied the family to the ship, and afterward these friends commented dubiously upon the fact that these expressions of a nameless dread of coming calamity had marred the otherwise happy adieux at the pier.

Of the five members of the family who sailed, father, mother, a son and two daughters, only the father is living. The family consisted of Edward W. Sentell, a retired real estate operator; his son, Charles E., a lawyer, and member of the firm of Morris, Sentell & Mayne of Manhattan, and two daughters, Blanche and Gertrude.

CAME A SINGULAR LULL.

The day of sailing, a large crowd of young persons, friends of the family, went to the pier. Among them were something like a score of teachers, and as many pupils and a large group of close acquaintances of the elder Sentells.

It was the usual happy group that clustered about departing friends at the pier, but some time before the "all ashore" command was sounded on the ship, a singular lull came over the laughing friends, and the same thought seemed to be in the minds of all. That thought was "what if something awful should happen?"

Finally, the silence was broken, and the common thought found expression when Gertrude Sentell, with ill-feigned carelessness, said: "Well good friends if anything awful does happen we will all go together. It will be a family affair this time, surely."

Something akin to a shudder ran through the group of friends. One of the young women teachers, turning to Gertrude, said: "My dear, I wish you had not said that for I cannot help feeling that something is to happen, but let us hope that nothing will happen."

Another one of the party followed with the remark: "That same feeling came over me a moment ago, and let's all go together. Of course, nothing will happen."

Then several of the young women drew nearer to the two sisters and kissed them tenderly.

EXIT OF PERKINS.

George W. Retires in Whitewash.

Fowler Investigating Committee Gives New York Life the Facile Brush.

Scandals of the Armstrong Inquirers Lose Their Stable Appearance.

Financiers of the Insurance Company Given Eulogy.

Vacancies Filled.

NEW YORK, July 2.—[Exclusive Dispatch.] George W. Perkins today retired as trustee of the New York Life Insurance Company, after the Fowler Investigating Committee, which filed its final report, had given to him, in common with every one of his fellow board members, a clean bill of health.

Despite the scandals revealed by the Armstrong legislative inquiry and described in the Armstrong report, the Fowler committee discusses the Navigation Syndicate deal, the New Orleans Railway Securities affair and the Mexican Central Railway bond transaction, and its conclusion is that there was "no violation of duty" and that "no liability to the company attaches to Mr. Perkins or any other officer or trustee."

RESIGNATIONS PICKED OFF.

Perkins's resignation has been in the board's hands since last December, when he retired from the company's vice-presidency, but the board tabled it until it was accepted today. The resignations also were accepted of J. A. Blair and Norman B. Ream, both of whom are bankers.

To fill the vacancies, the board elected H. H. Lurton of Nashville, Tenn.; A. A. Raven of New York, president of the Atlantic Mutual Life Insurance Company and vice-president of the Metropolitan Trust, president of the Fidelity and Casualty, and James N. Eckels of Chicago, former Controller of the Currency.

LOOKS LIKE THE TICKET.

With these additions, and with all the old members vindicated by the Fowler committee's report, it is expected that the board, substantially as it now stands, will be named by the Nominating Committee to go before the police holders for reelection next December as the "administration ticket." It is also expected that in the effort to reflect them, the final report of the Fowler "house-cleaning" committee will be extensively used as a campaign document.

DOING THEM GOOD.

The report opens with a review of the committee's work, in which it is stated that it "has held sixty meetings and has availed itself of every source of information." Pages of eulogy follow, in which the Finance Committee comes in for special praise.

"No member of the Finance Committee," says the report, "has, directly or indirectly, peculiarly participated in or profited by the transactions of the committee."

SPECIAL COMMITTEE REPORTS.

BY THE ASSOCIATED PRESS.—P.M. NEW YORK, July 2.—The special committee of the Board of Trustees of the New York Life Insurance Company, appointed December 13, 1905, to consider the evidence submitted to the legislative committee and the report of five commissioners of State insurance, who were then examining the company's affairs, made its final report to the Board of Trustees today.

The report, which is a comprehensive one, deals with the financial condition of the company, the work of the Finance Committee, the general method of conducting the business, departmental work, expenses, foreign business, deferred dividend policies and various miscellaneous subjects, that are under separate heads. It is signed by Thomas P. Fowler, Norman B. Ream, Hiram R. Steel, A. O. Paine and Clarence H. Mackay.

After reciting that the special committee held sixty meetings and availed itself of every source of information concerning the affairs of the company, the report states: "It therefore feels that it has left nothing undone to enable it to determine how the business of the company in all its departments had been conducted, and speak authoritatively on that subject."

EXPERT'S BALANCE SHEET.

The report then submits the balance sheet of the expert accountants, which, in part, says:

"We have verified all the assets of the company, and after providing sufficient reserves for possible losses, find that on December 31, 1905, the total asset amounted to \$43,188,015, and are fully worth that sum."

"We have tested the clerical accuracy of the insured reserves, as certified by the actuary of the company, which amounts to \$37,151,063, and find that the reserve is correct, and that the department of the State of New York by the sum of \$7,291,720, and having made a provision of \$5,559,575, for all other liabilities, we find that there was a balance of \$67,174 available for dividends on participating policies (including deferred dividend policies at the end of their several accumulation periods), and for contingencies. This balance exceeds that claimed by the company in its annual report for 1905."

COMING IN COFFINS.

Dead Americans to Be Sent Home.

Salisbury Embalmers Performing Ghoulish Business With Dispatch.

Solemn Monotony With Little Evidence Characterizes Official Inquest.

Responsibility for the Wreck Not Placed—Board of Trade to Investigate.

BY THE ASSOCIATED PRESS.—P.M. LONDON, July 2.—Albert W. Swalm, the American Consul at Southampton, telegraphed to the embassy from Salisbury this evening that only two bodies were unclaimed; that all the injured were doing well, and that everything was being well looked after by the authorities.

THE INQUEST.

The inquest at Salisbury today was held in the City Hall. The American Consul at Southampton, Albert W. Swalm, is looking after the interests of the Americans. Immediately after the jury had been sworn, they proceeded to the railroad station to view the bodies. Reporters were not allowed to accompany them.

When the jury returned, the Coroner announced that only evidence regarding the identification of the bodies would be taken, and that the inquest would then be adjourned for a fortnight.

MR. SWALM OVERCOME.

Mr. Swalm was so overcome with emotion that he could hardly articulate. Tears coursed down his cheeks as he referred sadly to the bereaved. They had, he said, fallen into the hands of those who were moved by the highest Christian charity. After a few words of thanks to the Mayor of Salisbury, Mr. Swalm broke down completely and sobbed audibly.

Formal evidence regarding the identification of the bodies having been taken, the inquest was adjourned for a fortnight.

WRECK UNEXPLAINABLE.

Every independent effort to discover the cause of the accident has thus far failed, and the officials this afternoon said they also were in the dark.

The courage of the injured persons is admirably discussed. All who participated in the work of rescue relate instances of the patience of those who were suffering from broken limbs, their gratitude for the assistance rendered them, and their words of encouragement to the chair and stretcher bearers. Only relatives of the injured or those representing them are admitted to the infirmary, which, for the first time in its history, has resorted to the bulletin-board system.

THE INJURED.

The latest information repeats the earlier announcements, with the exception that Critchell and Miss Griswold are now doing fairly well. Miss Anna E. Koch of Allentown, Pa., 14 years old, whose father was killed, whose mother is among the injured, and who escaped with a black eye, was out shopping today. She does not seem to realize the enormity of the disaster, is unable to tell how it happened, and simply declares she does not know.

A number of relatives and friends of the victims arrived here this afternoon, and many affecting scenes were witnessed at the temporary mortuary, which is a ghoulish place. On the platform outside splinters and other wreckage piled high, and looking like matchwood, bear evidence of the terrific force of the impact.

WRECKAGE CLEARED AWAY.

The scene of yesterday's disaster to the American Line special train from Plymouth, having on board the passengers who were landed from the steamer New York, presents little evidence, today, of the havoc wrought by the wreck of the express train, all the wreckage having been cleared away.

AMERICAN DEAD EMBALMED.

The bodies of the American victims are being embalmed for conveyance home.

E. W. Sentell rallied somewhat as the day advanced, and after consultation with his doctors, the chaplain of the infirmary was allowed to convey to him the news of the death of his wife, son and two daughters. The heart-rending tidings overcame the old man, and a severe relapse ensued, but restoratives were successfully administered.

COURAGE OF SENTELL.

Replying to the sympathetic condolences of the American Consul, Mr. Swalm, Mr. Sentell said: "I will try to show you that I am a man, although I have seventy years to bear."

REID ANSWERS THE MAYOR.

The Mayor of Salisbury, in reply to his message of sympathy to the American Ambassador, has received the following:

"Acknowledging your dispatch, I hasten to express the appreciation of my government and of the American people for the sympathy and aid shown at Salisbury in the terrible accident to the American boat train. (Signed) 'WHITELAY REID'."

STRANGE SORT OF FATALITY.

TRAVELERS HAD FOREBODDING.

BY THE ASSOCIATED PRESS.—P.M. NEW YORK, July 2.—A strange sort of fatality seems to have attended the journey from here of those New Yorkers who met such an appalling death in the wreck of the American Line Express on the London and Southwestern Railroad at Salisbury, England. Forebodings that some calamity would overtake them moved the Sentell family party of five to discuss the subject with friends on the pier just as they boarded the steamer, and before they boarded the steamer, one of the party remarked with much solemnity that should the "premonition" come true, the entire party would go into eternity together. As a matter of fact only one of the five survives the wreck.

Again, seven of the others killed were old acquaintances and had traveled abroad, most of them in years past in each other's company. So strong was this friendship that they had planned to hold a Fourth of July picnic and celebration in London, but today, only two of the seven are alive.

"JACK" McDONALD'S DEVOTION.

It was due to circumstances, also, that John E. McDonald, the wealthy turfman, was among the dead. That circumstance was devotion to his ally, John E. McDonald, who had planned for his voyage on account of the illness of his wife, but he postponed the trip until her health was improved, when she accompanied him.

When the New York sailed from New York there were seven persons in a small group, all of whom were well known, and of all the happy crowd on the great liner none was more cheerful than they. In the party were Mrs. Lillian Hurd Waite, one of the best-known milliners in New York, and the wife of former Alderman Charles H. Waite; John E. McDonald and Mrs. McDonald; Charles F. McMeekin, the Kentucky turfman; Mrs. C. W. Elphicke, and her daughter of Evanston, Ill., and Miss Mary F. Howison, who conducted a millinery business in this city. They were all old friends, and they hoped to celebrate the nation's birthday in the British capital. Mrs. McDonald and Mrs. Elphicke alone escaped.

END OF A HONEYMOON.

Perhaps the saddest of all the announcements which the cable brought to relatives and friends in New York yesterday was the message received by Judge Dugro from his daughter, Mrs. Frederick Coslett, stating briefly that death had ended her brief honeymoon trip, and that she would return to New York with the body of her husband.

Attended by many of the Supreme Court judges of the city, and persons prominent in New York's best society, the "wedding" at the Hotel Savoy had been one of the notable June nuptials. Miss Dugro was admired by a very large circle of friends, and her husband was one of the most popular men in Princeton. When the young couple sailed, they were accompanied to the pier by many of those who attended the wedding. What adds to the severity of the blow is the fact that Judge Dugro and his family were to sail tomorrow to join their daughter and son-in-law in London. All arrangements had been made for a trip to the continent together, and Dugro was expecting a message from his daughter, announcing their safe arrival in London, when the cable was received, telling of the catastrophe at Salisbury.

DISAVOWAL OF LIABILITY.

A disavowal of liability in connection with the wreck of the American Line express was made today by the directors of the International Mer-

United Railways Franchise in
Portland Acquired.

Chamber of Commerce Building
Included in Deal.

Organization of "The Bee."
San Jose Officials.

PORTLAND (Ore.) July 2.—[Exclusive Dispatch.] The United Railways of America, controlling the Front-street railway franchise, the Oregon Traction Company and the Chamber of Commerce Building, today passed into the possession of C. E. Loss of San Francisco and his Eastern associates. The purchasers have acquired 90 per cent of the capital stock of the United Railways Company at a price which is calculated to be upwards of \$1,000,000.

Negotiations, extending over a week, have been quietly conducted in this city between H. S. Dyer, representing the C. E. Loss Company, and members of the Oregon Development Company, who have disposed of their interests in the company, include W. L. Larrabee, M. H. French, J. L. Taylor, E. C. Lusk, Wilmer Griffin and other Los Angeles men who were principals in the United Railways company in this city.

The plans laid out by the United Railways Company will be carried forward by the C. E. Loss people. A reorganization will be effected within the next thirty days. C. E. Loss will enter Portland within the next few days.

MURDER BLOWN IN MAD ACT.

SEATTLE, July 2.—[The Associated Press.]—A few minutes after 10 o'clock, Charles Bowen, after having shaved himself, fired a shot at his sister, Mrs. Freda Bowen, aged 22 years, one taking effect in the left side, and the other in the right.

Bowen fired a third shot and blew a hole through the foot of the bed in the room which the two were occupying at No. 608 Ninth street, Seattle.

Bowen could be assigned for the murder of the landlady, Mrs. Dillman, who was in the rear of the house.

Bowen was taken charge of the rooming house, pending the arrest of the offender.

Bowen arrived here about two weeks ago, and seemed to be getting along pretty well. They had been living in Portland in a few days.

Bowen was subject to weakness in his actions which would lead him to believe that he would kill his sister or injure himself.

Bowen was in the right of mind at the time of the attack, until the first shot was fired.

Bowen was taken to the hospital, where he is now recovering from his wounds.

Bowen was taken to the hospital, where he is now recovering from his wounds.

Capt. Jordan in command, was sent over the course three times, twice at the record speed and once slowly. The requirements of the naval department are that the battleship shall make 19 knots, and her builders assert that this will be easily accomplished.

Roll Turned In.

ASSESSMENT COMPLETE.

STOCKTON, July 2.—[The Associated Press.]—The grand total of assessed valuation is \$26,849,743, an increase over 1905 of \$2,705,872.

THE COMMISSION MEETS.

MITCHELL'S PLEA IN SANITY.

ATTORNEY OUTLINES DEFENSE.

SEATTLE, July 2.—[The Associated Press.]—That the belief that his sister, Freda Bowen, would be killed by Mitchell, leader of the "Holy Rollers," drove George Mitchell insane and caused him, while in that condition, to kill Freda, is the defense that the young Oregon farmer boy on trial for his life in the Superior court, will offer, according to the opening statement made by Silas M. Shipley, one of the defendant's attorneys.

For two hours and a quarter the attorney outlined the evidence that the defense will offer. The fanatical acts of Mitchell in his so-called religious camp were detailed at length. Nothing was omitted. Every thing that would away the emotions of the jurors in Mitchell's favor was brought out in the opening statement, as the defense fears that it will be prejudiced by the court from introducing much of it as evidence.

Either Mitchell will be called to testify. It is expected that she will prove an unwilling witness for the defense, as she still mourns Mitchell's death and declares her brother should be punished.

SLOPE BRIEFS.

Find R. H. Brown's Body.

OROVILLE, July 2.—The body of R. H. Brown, a mining man and draughtsman of San Francisco and Alaska, was found yesterday lying in a drying pool of water with a gaping revolver wound in the forehead. The fact that the authorities have not yet been able to find the weapon has aroused suspicion that foul play may have been responsible for the man's death.

Fatal Shot by Laborer.

SAN FRANCISCO, July 2.—A man named Shea was shot and fatally wounded last night during a quarrel at the foot of Taylor street by James Phillips, a laborer. Phillips claims that he was attacked by Shea and a companion and that he shot in self-defense.

(BY DIRECT WIRE TO THE TIMES.)

DENVER (Colo.) July 2.—[Exclusive Dispatch.] Robert C. Critchell, for several months a resident of Denver, is a son of R. S. Critchell, the Chicago millionaire among those fatally injured at Salisbury. Eng. Robert was notified by cablegram of the accident, and will join his mother in Chicago.

LABOR UPLIFTS MUSIC.

Chicago Federation Passes Resolutions That Certain Vulgar Forms Are to Be Tabooed.

LABOR UPLIFTS MUSIC.

CHICAGO, July 2.—The Chicago Federation of Labor, after spending two hours yesterday in devising means for the musical "uplift" of Chicago, reached the following conclusions: "Hand-organ music must be improved by teaching classical themes to the Italian organ men."

BRITISH PENNY POSTAGE.

LONDON, July 2.—A deputation of both Houses of Parliament will wait upon the Chancellor of the Exchequer and the Postmaster on Tuesday to urge the government to open negotiations for penny postage with the United States.

ROLLING STOCK NOT SAFE.

"SPEEDING" TOO PREVALENT.

NEW YORK, July 2.—[Exclusive Dispatch.] Railroad men today declared that English and continental roads are inclined to speed certain trains faster than the weight of the rolling stock renders safe. In England and in France, there seemed a particular desire that trains bearing passengers bound to or from America should be run as fast as possible to please the Americans.

Everybody Going to Redondo.

Redondo Beach is the place to go. Music by the famous "Christians Military Band." Special trains of the Santa Fe Railway, the year's longest train today, and coast at Los Angeles Recreation Co., 124 South Broadway, ground floor, Chamber of Commerce Building.

WASHINGTON. LANDSLIDE IN CALIFORNIA.

Earthquake Commission Has One of Its Own.

Geological Survey Called Upon to Look It Over.

McLachlan and Postoffice Canal Commission.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, July 2.—(Exclusive Dispatch.) Secretary McLaughlin of the Department of Commerce and Labor has been much interested in the strong evidence presented by the California earthquake commission, that a horizontal displacement of the earth's crust has occurred along the coast of California, and the suggestion of the commission that the Coast Survey investigate the matter has been acted upon by the issuance of orders to test the triangulation where geographical coordinates, as prepared for publication, may have been seriously vitiated by earthquake disturbances. As these geographical coordinates form the basis of all accurate maps and charts, it has become obligatory upon the survey to make this test, and to rectify the data, if necessary.

Such displacements occurred as the result of an earthquake in Sumatra in 1862, and in India, a revision of the triangulation made after the earthquake of 1897 showed resulting differences of as great as twenty-six feet horizontally and differences of elevation amounting to thirteen feet.

RANGERS AND POSTOFFICES.

McLACHLAN'S RESPONSIBILITIES.

(BY DIRECT WIRE TO THE TIMES.) WASHINGTON, July 2.—(Exclusive Dispatch.) Representative McLachlan had another interview with the Postoffice Department, today, and protested strongly against the reduction of the force of rangers during the summer months. He pointed out the high state of cultivation in the rich valleys contiguous to the San Gabriel and San Bernardino reserves that depend on forests to conserve the water supply, and left feeling that the department fully understood the situation and that everything possible would be done.

McLachlan also had assurances that an extra allowance would be made by the Postoffice Department for the post office at Benicia as well as the cities in his district during the rush of the summer months. He also secured favorable adjudication of many pension claims at the Pension Department since the adjournment of Congress.

REPORT SHOWS SURPLUS.

JUNE RECEIPTS INCREASE.

(BY THE ASSOCIATED PRESS—P.M.) WASHINGTON, July 2.—A surplus of \$20,294,773 is shown by the comparative statement of the government receipts and expenditures for the month of June, 1906, as compared with the month of last year and a surplus of \$26,187,159 for the fiscal year ending June 30, 1906.

TAWNEY ON EXPENSE.

UNITED STATES BEATS EUROPE.

(BY THE ASSOCIATED PRESS—P.M.) WASHINGTON, July 2.—Representative C. Tawney, chairman of the House Committee on Appropriations, has prepared a detailed statement concerning the appropriations for the fiscal year beginning July 1, 1906, made by Congress during the session just closed, in which he claims that the per capita cost of government in the United States, including Federal and State, is less than that in any European country.

THE APPROPRIATIONS AS MADE IN THE VARIOUS SUPPLY BILLS ARE AS FOLLOWS:

Agriculture, \$3,582,540; army, \$11,817,150; diplomatic, \$1,200,000; navy, \$9,094,000; District of Columbia, \$10,128,692; fortifications, \$5,053,993; Indians, \$2,580,214; legislative, executive and judicial, \$25,741,019; military academy, \$1,046,708; navy, \$10,071,650; pensions, \$1,040,245,000; postoffice, \$1,055,939; sundry civil, \$8,274,574; total, \$672,867,724.

ISTHMIAN CANAL DEFICIENCY \$11,000,000.

ISTHMIAN CANAL DEFICIENCY \$11,000,000. The report of the board has been received at the department, and its findings say that the music played, while having an insupportable effect suited to the occasion, and the best band could play, their repertoire being limited.

THE NEWSPAPER WHICH PUBLISHED THE ARTICLE IN MANILA IS SEVERELY CONDEMNED IN THE REPORT.

THE ORDER FOR THE PIECE WAS GIVEN BY ACTING DRUM-MAJ. WALTER PRESTON.

WHERE VALENCIA WAS LOST.

LIFE-SAVING STATION NEEDED.

THE ORDER WAS GIVEN BY THE TOWNSHIP.

WASHINGTON, July 2.—(Exclusive Dispatch.) Superintendent Kimball of the Life Saving Service will leave for the Pacific Coast next week.

THE PRIMARY OBJECT OF THE TRIP IS TO ESTABLISH A LIFE-SAVING STATION ON THE WASHINGTON COAST NEAR THE SCENE OF THE VALENCIA wreck.

THIS STATION WILL BE DIFFERENT FROM MOST OTHERS, IN THAT IT WILL BE HEADQUARTERS FOR A REVENUE CUTTER WHICH WILL ASSIST MARINERS IN NEIGHBORING WATERS.

THIS RELIEF WILL, DOUBTLESS, BE WELCOME TO SHIPPING INTERESTS BETWEEN PUGET SOUND POINTS AND SAN FRANCISCO AND SOUTHERN CALIFORNIA PORTS.

ASSISTANT SECRETARY MURRAY SAYS THERE IS NO MORE BLESSED SPOT ON THE ENTIRE COAST THAN WHERE THE VALENCIA WAS LOST.

KIMBALL TODAY SAID STEPS WOULD BE TAKEN IMMEDIATELY TO REPLACE THE RESERVE SUPPLIES OF HIS BUREAU, DESTROYED BY FIRE AT SAN FRANCISCO; ALSO TO REPAIR THE DAMAGE CAUSED BY THE EARTHQUAKE TO SEVERAL BUILDINGS.

KIMBALL DID NOT GET ALL THE MONEY FROM CONGRESS HE WANTED FOR THESE PURPOSES, BUT HE SAYS THE NECESSARY WORK WILL BE DONE WITHOUT DELAY.

SO THE LIFE-SAVING SERVICE ON THE PACIFIC COAST CAN BE MADE THOROUGHLY EFFICIENT AND CAPABLE OF MEETING ALL EMERGENCIES.

THE GOVERNMENT DEBT.

WASHINGTON, July 2.—At the close of business June 30, 1906, a statement issued by the treasury shows that the government's total debt, less cash in the treasury, aggregated \$64,635,685, a decrease for the month of \$17,319,062.

of the practice prevailing with the present administration of appointing commissioners to do what Congress ought to do, and what Congressmen are elected for and paid for doing, and thus delegating the powers constitutionally belonging to Congress to others who have no particular relations with or responsibilities to the public and do not render an accounting to the taxpayers of this country.

TO AFFORD AN IDEA OF THE MAGNITUDE OF THIS YEAR'S APPROPRIATIONS, MR. LIVINGSTONE SAYS:

"On the crop of 1899, valued at \$228,192,238, could have been paid for with the total appropriations made at this session, and a few millions to spare."

SECRETARY WILSON BUSY.

WILL ENFORCE NEW LAWS.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, July 2.—Secretary Wilson of the Department of Agriculture has decided not to enter upon his annual vacation until he has completed the organization necessary to put into operation the new meat inspection law. He will give practically his entire time to the work for the next two months. The new pure food law also will require attention, but he intends to leave this almost wholly to Dr. H. F. Wiley, chief of the Bureau of Chemistry.

BY DIRECTION OF THE PRESIDENT, SECRETARY WILSON TODAY ISSUED THE FOLLOWING STATEMENT:

"American live stock are the healthiest in the world. Great ranges of the West produce herds of cattle in which the percentage of disease is remarkably small, and the Federal government is steadily reducing, by approved scientific methods, this small percentage. The inspection of the animals before they are sent to market is a duty which is being thoroughly done. It is true that the Department of Agriculture has heretofore lacked the power and money to provide for an efficient inspection of the sanitation and the methods of preparation of canned meat food products."

"THE LEGISLATION WHICH HAS JUST BECOME EFFECTIVE PROVIDES THE DEPARTMENT OF AGRICULTURE WITH AN ADEQUATE LAW AND WITH AMPLE MONEY TO CARRY IT INTO EFFECT."

"Superior and inspection will be extended from the pasture to the packers. The Federal stamp upon the can will be a guarantee, not only of the healthiness of the animal, but also that the product was prepared in sanitary surroundings, and with the addition of no deleterious chemical or preservatives. Any meat food product bearing the government stamp will be fit for food."

"WITH THIS LAW IN OPERATION, IT MAY BE ACCOUNTED AS A FACT THAT FOR HEALTHFULNESS AND PURITY THE PREPARED OR CANNED PRODUCT WILL COMPARE FAVORABLY WITH THE FRESH MEAT OF THE UNITED STATES, WHICH IS, AND ALWAYS HAS BEEN, THE FINEST IN THE WORLD."

"The new law is comprehensive, it means for its enforcement are ample, and its execution will be thorough. People at home and abroad may use our meats in confidence."

NEW CANAL COMMISSION.

PRESIDENT'S APPOINTMENTS.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, July 2.—Because of the failure of the Senate to confirm the nomination of Theodore P. Shonts, chairman, John F. Stevens, Gov. Charles E. Magoon, Brig. Gen. Peter C. Haines, U. S. N. (retired), Mortimer E. Easton, civil engineer, S. S. and Benjamin M. Harrod, members.

STEVENS REPLACES BRIG-GEN. OSWALD H. ERNEST, WHO RETIRED FROM ACTIVE SERVICE IN THE ARMY LAST WEEK, AND WILL HEREAFTER DEVOTE PRACTICALLY HIS ENTIRE LIFE TO THE INTERNATIONAL WATERWAYS COMMISSION.

Shonts, who was secretary to the old commission and a member of the new commission, will be secretary to the new.

THE SALARIES OF THE MEMBERS WILL CONTINUE THE SAME AS HERETOFORE.

Stevens will continue as chief engineer of the commission, but will not receive any extra compensation for his services as a member of the commission.

CANAL BONDS FOR PUBLIC.

Secretary Shaw today offered to the public \$20,000,000 of the Panama Canal loan authorized by the recent act of Congress. The bonds will bear interest at the rate of 2 per cent, will be dated August 1, 1906, and interest will be payable quarterly. They will be redeemable at the pleasure of the government at the end of ten years, and will be payable thirty years from date.

THE BONDS WILL BE EXEMPT FROM TAXES OR DUTIES OF THE UNITED STATES, AND WILL BE AVAILABLE TO NATIONAL BANKS AS SECURITY FOR CIRCULATION. THE BONDS WILL NOT BE SOLD FOR LESS THAN PAR.

All citizens will have equal opportunity to subscribe for them, and the bids must be submitted to the department on or before July 20, 1906.

"ALWAYS IN THE WAY."

AIR THAT HAD VARIATIONS.

(BY THE ASSOCIATED PRESS—A.M.)

WASHINGTON, July 2.—"Always in the Way" is the title of a piece of music played at the funeral of Private C. W. J. Anderson, of the Marine Corps, at Olongapo, P. I., and resulted in severe newspaper criticism and finally an investigation by officers of the corps.

THE REPORT OF THE BOARD HAS BEEN RECEIVED AT THE DEPARTMENT, AND ITS FINDINGS SAY THAT THE MUSIC PLAYED, WHILE HAVING AN INSUPPORTABLE EFFECT SUITED TO THE OCCASION, AND THE BEST BAND COULD PLAY, THEIR REPERTOIRE BEING LIMITED.

The newspaper which published the article in Manila is severely condemned in the report. The order for the piece was given by Acting Drum-Maj. Walter Preston.

WHERE VALENCIA WAS LOST.

LIFE-SAVING STATION NEEDED.

THE ORDER WAS GIVEN BY THE TOWNSHIP.

SPANISH WAR "VETS" M. Soldiers of More Struggle Gather.

California Department Encampment Here

Visit at Soldiers' Home Pleasing Feature.

With the sounding of "The Star-Spangled Banner," the third annual encampment of the California Department of the United Spanish War Veterans opened yesterday morning at the Soldiers' Home.

The first meeting was an open one and not only the delegates, but friends were there.

After the "assembly" call, Gen. Joseph J. Burdette, taking the place of the late Gen. John A. MacArthur, delivered the address of welcome in his usual witty manner.

The discussion of the national convention was then called for a brief session.

Mrs. E. S. Bean spoke on behalf of the United Spanish War Veterans Auxiliary, in which she criticized national president and secretary U.S.W.V. in regard to the management of the department.

Bean made a motion that ladies visitors be included in the business sessions. There was a good deal of discussion on the motion, which was lost when put to a vote.

After the adjournment until this morning, the delegates gathered for the morning session.

At this morning's session of the department, the annual election of officers for the department of California took place.

Never before in the history of the organization has there been such a hot fight for the chief position.

The support of the delegates for the various candidates was an even contest, with the Southern Pacific contingent expecting to carry the election before going onto the morning session.

The storm centered around Maj. William S. Bean of San Francisco, commander of the 1st Division, and his opponent, Maj. Charles W. Cooper of Los Angeles.

Bean was defeated by Cooper, but he is now in the field again, and is expected to be re-elected.

Bean was re-elected to the position of commander of the 1st Division, and his opponent, Maj. Charles W. Cooper, was elected to the position of commander of the 2nd Division.

Bean was re-elected to the position of commander of the 1st Division, and his opponent, Maj. Charles W. Cooper, was elected to the position of commander of the 2nd Division.

LABOR.

PLUMBERS IN BOLD HOLD-UP.

San Francisco Asked to Pay Six Dollars a Day.

Five Hundred Strike for Twenty Per Cent. Raise.

Wages Already Were Highest in United States.

(BY DIRECT WIRE TO THE TIMES.)
SAN FRANCISCO, July 2.—[Exclusive Dispatch.] Not content with receiving a wage rate of \$2 a day, the highest wages paid to journeymen plumbers in any part of the United States, the San Francisco Plumbers' Union, of San Francisco, has made a demand that the wage rate be increased to \$6 a day and five hundred journeymen plumbers struck this morning to enforce these demands.

One hundred and fifty of these men have gone back to work at the rate asked, being employed by contractors who are in such a pinch in order to complete their contracts that they must have men regardless of the price asked for their labor.

MAY START OPEN SHOP.

The plumbers' strike, while vexatious to contractors, is really a ray of light in the labor complication which have arisen here, and which threaten to retard the rebuilding of the city.

CHILD BEATEN TO DEATH.

Woman in Youngtown, O., Said to Have Killed Daughter With Nail-Filled Board.

(BY THE ASSOCIATED PRESS—A.M.)
CHICAGO, July 2.—A dispatch from Youngtown, O., says: "The discovery yesterday that 8-year-old Elsie Anderson had died of wounds on her back, apparently the result of a beating with a stick filled with nails, was followed by the arrest of her step-mother, Mrs. Jennie Anderson.

"She was very nervous, and beyond admitting that she had beaten the child frequently in the last three weeks refused to talk.

"Physicians who examined the body of the child declared that she had been beaten to death. The body presents a horrible sight. From the top of her head to the soles of her feet there are not four square inches not punctured with what are believed to be nail holes, or covered with ugly wounds. One of the child's shoulders was broken.

"Neighbors say that for three weeks the woman has kept the child hidden from his father. When the father returned to his home at night, the little one was shut up in an attic. Marks on her arms indicate that she was tied with ropes.

JOHN D. BUYS COLLECTION.
Prof. James Hall's Fossils and Minerals Will Go to the University of Chicago.

(BY THE ASSOCIATED PRESS—A.M.)
CHICAGO, July 2.—John D. Rockefeller has purchased for the University of Chicago the most extensive collection of fossils and minerals probably in existence in the country. This, with the numerous other groups now in possession of the University, gives the institution what is believed to be the most valuable aggregation of paleontological specimens in the United States.

The sum paid for the collection, which was gathered together by the late Prof. James Hall, who for more than fifty years was State geologist of New York and the foremost American paleontologist of his time, is not stated exactly. The collection was valued by Prof. Hall at \$150,000.

It was declared in the announcement of the gift made by Acting President H. P. Judson last night that "this price proved too high for the resources of any of the many universities anxious to acquire it, but the sum agreed upon is considerably below that figure."

EARLY FOURTH IN CHICAGO.
CHICAGO, July 2.—The Fourth of July harvest is in good earnest in Chicago. Yesterday four persons suffered injuries from the deadly toy cannon, pistol and cap gun.

Violations of Mayor Dunne's orders against premature celebration of the Fourth spread through the entire city and scarcely more than ten minutes passed in any of the more populous districts without the bursting of some kind of noise maker. The police, despite this condition, made only one arrest, but the various headquarters it was asserted that a sharp lookout was being kept for violators.

ENTOMBED MINERS ALIVE.
LONDON, July 2.—After being imprisoned for six days in the flood of Caradoc (Wales) colliery, two miners of the six originally imprisoned were rescued alive today and three bodies were brought out by the rescue parties. The search will be kept up, although hope of finding them has been almost abandoned.

SENATOR LODGE IN COURT.

Summoned to Testify in Suffolk County, Mass., in Old Campaign Matter.

(BY THE ASSOCIATED PRESS—A.M.)
BOSTON, July 2.—United States Senator Henry Cabot Lodge, who was summoned to appear before the grand jury of Suffolk county in an investigation into campaign contributions by Dist. Atty. John B. Moran, came to the Courthouse today.

The Senator had been called to appear tomorrow, but arrangements were made to meet at the District Attorney today instead.

The investigation is a development of the case of Robert G. Proctor, who last week was convicted of the larceny of \$225, which John C. Beane officially claimed he had given Proctor, who was Senator Lodge's secretary, as a contribution to the Republican State campaign fund in 1904.

Several prominent Republicans, including officers of the State Committee, were summoned to appear before the grand jury tomorrow.

While Senator Lodge was with the District Attorney, the grand jury, which is an entirely new one and will serve for the remainder of the term, was sworn in and received its instructions from Judge Bishop. Senator Lodge was escorted into the grand jury room by the District Attorney just before 12 o'clock. He remained about forty minutes.

Upon departing he said that he could not disclose the nature of the questions asked him. He could say, however, that the subject seemed to him to be "quite unimportant" and one upon which he could give no information.

He said it was his understanding that the District Attorney's purpose was to secure the testimony of the Republican State Committee concerning certain campaign contributions.

Senator Lodge then left the Courthouse.

Judge De Courcy of the Superior Court, before whom Proctor was tried, announced this afternoon that he would

not grant a new trial for Proctor, which had been asked for on the ground that the verdict was against the evidence.

Later Judge De Courcy sentenced Proctor to serve ten months in the House of Correction.

It is understood that the case will be carried to the Supreme Court.

JESUITS TO ELECT DELEGATES.
NEW YORK, July 2.—Jesuit supporters from all the colleges and universities in the New York and Maryland provinces of the order arrived here last night to attend a special congregation of the order to elect two delegates to the general congregation which is to be held at Rome in September to elect a Father General of the entire Jesuit order in succession to the late Father Martin.
KENTUCKY FEUD TRIAL ON.
BEATTYVILLE (Ky.), July 2.—The trial of former County Judge Hargis and Fulton French, an attorney, former Sheriff Ed Callahan and others on the charge of assassinating Lawyer James B. Marcum three years ago, was begun today. It is expected the day will be spent in securing a jury. Hargis and Callahan and their friends have made a personal canvass of all the men available for jury service.
MANILA OFFICER ENDS LIFE.
NEW YORK, July 2.—A dispatch from Manila announces that Lieut. Talmadge Breerton of the Second Infantry committed suicide there yesterday by shooting himself in the head at the Army and Navy club. It is said the act was committed while he was temporarily insane.

City Clerk.

DOUMA ENDS
IN AN UPROAR.MEMBERS REFUSE TO HEAR GEN.
PAVLOFF.His Appearance Before Lower
House Is the Signal for Cries of
"Murderer," "Assassin" and "Mas-
sacre Organizer," and Adjourn-
ment Is Necessary to End Turmoil.

BY THE ASSOCIATED PRESS—A.M.]

PETERSBURG, July 2.—The
session of the lower house
of parliament today, which was de-
voted to the discussion of the law pro-
viding for the abolition of the death
penalty, broke up in utter disorder
when Gen. Pavloff, the military procu-
rator, attempted to address the house
in behalf of War Minister Rudiger.His appearance in the tribune was
the signal for an outburst of cries of
"murderer," "assassin," "organizer of
massacres," from the members
of the Group of Toli in which the left
grouped.The members of the house pounded
their desks, shouted, whistled and re-
sisted to every violent means of show-
ing their displeasure.Gen. Pavloff, after listening to the
storm for several minutes, turned to
President Mouroumetzoff, bowed, half
smiling, signified his acceptance of the
situation and left the tribune.Mouroumetzoff, who appeared to be
thoroughly angered at the demonstra-
tion, endeavored to quell it with his
voice and the violent ringing of the
bell used in calling the house to order,
but he abandoned his fruitless task and
left the chair, signifying that the ses-
sion was adjourned. Later word was
received among the members that an
attempt would be made to resume the
session at the expiration of an hour.Gen. Pavloff, who remained in the
tribune, said he was willing to make an-
other effort to deliver his speech in
the afternoon, if so desired. The
appearance of Pavloff was preceded by
a long speech from Prof. Kusmin Ka-
shin introducing the bill providing
for the abolition of the death penalty.Immediately after the session had
broken up the Group of Toli and
the Constitutional Democrats
and caucuses of their respective
parties.The Group of Toli decided to make a
demonstration every time Pav-
loff appeared, holding that it is bet-
ter to drive out one man than have
a whole party go out as they cannot
do so to the words of a murderer. The
Constitutional Democrats resolved to
denounce the Group of Toli from
the tribune and endeavor to per-
suade them, if they cannot listen to
them, to leave the house.

SHORT LEG LENGTHENED.

Wilder Who Fell From Horse
Will Be Able to Enter West
Point Again.

BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, July 2.—Walter Wilder,
West Point fourth class man who
lost his right leg so badly
that when it mended it was
six inches shorter than the other,
entered West Point this fall. To
enter the academy, the cadet al-
lows the doctors to rebreak his leg
in several places, in order that in re-
turn it might be restored to its
original condition.Wilder, who is one of the Pres-
ident's personal appointees, entered
West Point in the fall of 1905. In Sep-
tember, last, he was horseback riding,
the horse fell and rolled over
him, breaking in several places the
bone of his right leg.He consulted with a number of
surgeons, who told him that
it would be impossible to re-
store his leg to its original condition
and he went to the Polytechnic
school in Philadelphia, where the
operation was performed. After eight
months of treatment, his leg was
restored to its original length, and he
will reenter the academy without any physical defect.

LAND DRAWING BEGINS.

Government Lottery in Billings Is
Opened With Large Crowd Anx-
iously Waiting.

BY THE ASSOCIATED PRESS—A.M.]

BILLINGS (Mont.) July 2.—The
drawing for lands on the Crow Indian
reservation began here today at 9 a.m.
The government land lottery was
conducted by the commission ap-
pointed by Secretary Hitchcock, com-
posed of W. A. Richards, commissioner
of the Government Land Office, Mar-
tina of Helena and William
Schmitz of Cheyenne, Wyo.Small boys were chosen from
among the crowd to draw the numbers
from the wheel, which resembled a
wheel of fortune. The tickets were
placed in the wheel and thoroughly
mixed by several
of the crowd.The first drawing was made by Owen B.
Johnson, a section foreman at Custer,
S. D. The numbers drawn were 1, 2, 3,
4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16,
17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27,
28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38,

QUERY: WHO HAS LARGEST TREE?

Many Peppers Are Told Of By
"Times" Readers.

One of the "Titanic Specimens" is at the home of Mrs. Elmer H. Hermitage, near its lofty height at the Santa Barbara river, Santa Barbara and Los Angeles in contest.

Do you beat this pepper? was the question recently by a Times reader and laced over a time of a giant tree in Santa Barbara. Had the innocent writer of the supposed for a moment that he was about to bring more work up, he would not doubt have been careful in casting out an every challenge to the people.

WIGGINS WRITES.

Boomer Finds Time at Atlantic City to Send Description of His Experiences.

Now that Frank Wiggins has had a few minutes to himself, he has taken his first opportunity to write back to Los Angeles concerning the exhibit established for Southern California on the famous Board Walk at Atlantic City.

He recounts incidents already published, but his observations are interesting. He says, in a part of his letter: "The opening of the Los Angeles Chamber of Commerce exhibit was not as programmed in consequence of the pressure of the public, and especially the sightseers who were planning to leave the middle of June, we were compelled to open our doors three days before fully installed. We hurriedly got the exhibit in place and looked over, thus getting an impression of what was going on, until curiosity got the best of us, and Sunday afternoon, the 16th, the crowd came down on us in mass, and came so near breaking in front windows and doors, that we threw the doors open and they have been open ever since from 7 a.m. to 11:30 p.m., daily. Four thousand visitors passed through the exhibit from 3 to 11 p.m. the first day, and until the past two days the average daily attendance has been 3500."

Our location is most central for the class of people we wish to visit. While not in the crush section, it catches the leisure class who have time to look and talk. These become interested either in locality or our fruits, and come often and repeat the visit, and soon become a very useful agent, bringing many friends, to look us over, carry off our best literature to mail to friends at home, etc.

Kicker we have none. Everybody is pleased and interested. Exposition experts say it is the most unique, attractive and original display of its kind ever placed before the public. Now with all this favorable comment and interest expressed, we feel fully repaid for all efforts and drawbacks incident to its launching, and think we have done a great thing, not only for Los Angeles and Southern California, but for the whole State. We

look for substantial and lasting benefit. "One pleasing feature is that we hear very little about earthquakes. Most every one expresses sorrow and regret for the San Francisco catastrophe, and predicts a rapid and substantial restoration of that city. And no one speaks of the reported quake at Los Angeles, and all who talk of us give us great credit for action taken in sending relief so quickly to San Francisco. Those who were en route visiting the coast are more enthused after seeing our display, and seem determined to carry out their intention as though nothing had happened."

"We can't say that we are captivated with climatic conditions here. It has rained about every other day since we arrived. Weather cool and damp, sun is not doing its best when on duty, in fact the weather has acted as though angry, whether because we came in a leading question among some of the natives."

STATEMENT

OF THE.....

FIREMEN'S FUND INSURANCE CORPORATION

OAKLAND, June 28, 1906.

This new corporation was organized on May 16th, 1906, with a capital stock of \$1,000,000, divided into 10,000 shares of \$100 each, and in addition thereto a net surplus of \$1,000,000, payable in quarterly installments of \$500,000 each. Nearly \$400,000 has already been paid in cash. Succeeding quarterly payments fall due September 20th and December 20th, 1906, and March 20, 1907.

The Corporation was licensed to do an insurance business by the California Insurance Commissioner on May 10th, 1906.

IT HAS NO LIABILITIES IN THE DESTROYED DISTRICT OF SAN FRANCISCO, AND IS NOT AFFECTED BY THAT CALAMITY.

This new Corporation, even at this time, is financially stronger than most insurance companies operating on the Pacific Coast.

It has assumed the outstanding, unexpired liability of the old Fireman's Fund Insurance Company, for which service it has received adequate payment. This compensation, together with the cash paid in by the stockholders of the new Corporation, brings its present cash assets up to nearly \$3,000,000, all of which is available for meeting its liabilities under policies, contracts or guarantees.

The guarantee of the new Corporation will be endorsed on all policies of the old Fireman's Fund Insurance Company not involved in any loss, if the policy holders will present their policies to the agents of the old Fireman's Fund.

W. J. DUTTON, President.

A SPECIALTY

BLOOD AND SKIN DISEASES

I have secured the services and treatment of an old specialist of 30 years' experience in the treatment of all blood and skin diseases. Our remedies are entirely new and contain no mercury or iodine of any kind and we are treating with a wonderful success the following diseases: Acne, Eczema, Scabies, Ringworm, Itch, Psoriasis, Pimples, Rheumatism, Gout, and all private and contracted diseases. We absolutely cure Piles, Hemorrhoids, Varicose veins and Stricture without cutting, the use of caustics or detention from business. Trial treatment free in our office. Office hours, 10 to 12 a.m., 1 to 4 p.m. Evenings, 7 to 9 p.m. Sunday, 10-12 a.m., 2 to 4 p.m.

MELVIN WIGGINS, M.D., 614 S. Spring St., Grand Pacific Hotel.

SURE FENDER TEST.

Dairymen Thrown Before Car on Main Street and Instantly Picked Up, Practically Unhurt.

Had F. A. Russell, a dairymen residing at Seventh and San Julian streets, willfully planned to test the new fenders on the trolley cars yesterday afternoon he could not have succeeded better.

While driving south on Main street directly between the rails, and a few feet in front of car No. 351, the wheels of his milk wagon came off, letting him down on the tracks.

So near was the car to the vehicle that it was upon him immediately. Like a flash Russell was picked up by the fender, and aside from a few slight bruises, he was not injured.

July Premium Sale.

Pianos, Organs, Talking Machines, Music Boxes, Violins, Guitars, all at reduced prices. Five pieces of popular music for \$5 this week and next at the

BARTLETT MUSIC COMPANY, 215-225 S. Broadway, OPPOSITE CITY HALL.

\$2 For \$1.

For every dollar paid as first payment up to \$50 on any new piano, we will give a credit of twice the amount during our great July Premium Sale. \$25, \$35, \$45, \$55, etc. BARTLETT MUSIC COMPANY, 215-225 S. Broadway, OPPOSITE CITY HALL.

BIG THINGS DOING

Mammoth Shoe House, 519 South Broadway

Again Slashing Shoe Prices—Today a Day of Bargains

Today will be another of those exceptional trading days at the Mammoth Shoe Store, 519 South Broadway. Mid-week bargains of unusual importance are offered. Here is a slight idea of what to expect: Women's \$3.50 Oxford, elegant tan Russia calf stock, stamped on the sole "Burt \$3.50 Shoe" and the sale price is \$1.50. Just a dollar and a half takes them away and the assortment is large and your size is there. This hot weather should drive you into tan shoes. And in that line here too, is a men's special bargain: \$3.50 grade shoe at \$1.95. You will find both high and low shoes in the lot and plenty of them; when these went on sale yesterday there were 1400 pairs—quite a few pairs less today though and if you appreciate a good thing come to-day. There is also a big lot of women's high grade shoes on sale at the same price—\$1.95; \$3.00 or \$4.00 qualities. Then at 95c a special in women's shoes and oxfords. The children are also in on the good things; 98c boys boys shoes; 49c—75c are the attractive prices on children's shoes and 98c again for misses' shoes. Just about half what you usually pay. Remember the number, 519 South Broadway. The Mammoth Store is the place.

If You Want to Go East C. Haydock, Bartlett Music Company, 215-225 S. Broadway, opposite City Hall.

FREE TO MEN!

And Women, Too!

Do you want to be a big husky man, with vim and power in your every action, with courage, self-confidence and ambition to "do things"? Do you want to get rid of that feeling of gloom, that weakness in your back, that nervous, worn-out feeling which makes you for business or pleasure?

Do you want to feel like a man all over, to hold up your head with the knowledge that you are the man that nature meant you to be?

Do you know that no man reaches a weakling because he wants to. We are sure that you want to overcome every indication of early decay that has shown itself on you. We don't think the man lives who would not like to feel as big and strong as a Sandow, and we know that if you have a reasonable foundation to build upon we can make you a bigger man than you ever hoped to be. We want you to know that, you who can't believe it, and we want you to have our book in which we describe how we learned that strength was only electricity, and how we learned to restore it; also we want to tell you the names of some men who will tell you that when they came to us they were physical wrecks, and are now among the finest specimens of physical manhood.

We can do just as much for women as for men. We have thousands of letters from grateful women, who had spent years and money trying to get relief from drugs, and who came to us as a last resort and are cured now.

Why should you be suffering when you know that your friends and neighbors are being cured? Why, the money you spend for drugs in a few months, if invested in my treatment, will assure you health and happiness for life. Don't you believe it? Then send for this book with the proof that we can give you, and you will be convinced.

Don't wait a minute. Send for this book now. If you will inclose this coupon we will send it sealed, free, and will give you the names of your own neighbors who are cured. We will tell you whether you can cure yourself or not, if you will tell us your troubles. Call, if possible, for free consultation.

Put your name on this Coupon and send it in if you can't call.

THE DR. M. G. McLAUGHLIN CO., 129 South Spring street, Los Angeles. 7-6

Its Quality

Will Appeal to You Who Suffer

Others Brag and Boast

I Give You Results

VARICOCELE

I cure in four to six days. Many men have treated unsuccessfully for varicocele. My treatment is painless and the results are complete and forever.

STRICTURE

I cure the right way once and for all. I remove the urethral obstruction, inflammation and soreness, and restore the membrane to a healthy condition, usually in ten to fifteen days.

CONTRACTED DISEASES

Failure to quickly cure these conditions is due to harsh measures, which are the direct cause for chronic conditions. My treatment is most cleanly and perfect.

I cure renal, urinary and bladder troubles, piles, fistula and blood diseases, wasting, nervous and chronic conditions, causing functional derangement, impairing strength and vitality.

Why I Can Say That

DR. TAYLOR, The Leading Specialist.

My practice has become larger by far than that of any other physician or specialist in the West, and this is solely because of the positive cures I have made. The vast multitudes of men who have taken my treatment have not been disappointed. They know that I do not promise more than I can perform. To them I have actually illustrated in the cure of their own cases the truth of what I claim, namely, that my treatment is as certain to cure as it is that the patient engages my services and follows my directions. My success is due not alone to education, my experience, skill and scientific equipment, but to the fact that I limit my study and practice strictly to disease and weakness of men. I treat nothing else. To make matters worse, I have already and enthusiastically devoted twenty-five of the best years of my life, and on them all my faculties are concentrated.

I Cure Permanently:

Weakness, Varicocele, Hydrocele, Specific Blood Poison, Contracted Disorders, Stricture and Reflex Ailments

I Charge the Lowest Fees I have the largest practice

Examination Free

I offer not only FREE Consultation and Advice, but of every case that comes to me will make a careful Examination and Diagnosis without charge. No stalling man should neglect this opportunity to get expert opinion about his trouble.

DR. TAYLOR & CO., 305 S. Spring St., Cor. Third St. Los Angeles, Cal.

MEN

We are Specialists for: Varicocele, Hydrocele, Stricture, Piles, Fistula, Blood Diseases, Contracted Diseases, Private Diseases, Loss of Vital Power, Kidney and Bladder Troubles.

Varicocele

The permanent cure of VARICOCELE can only be obtained by operation. On this statement we make our professional reputation; as proof of this fact, let us quote from the most eminent authorities.

"Regardless of cause, we have to deal with the fact that the walls of the veins give way, relaxing and bulging out into little pouches and thus producing, when full of blood, knotty appearances. Any local application cannot but fail to give the sufferer relief. Such as electricity and all electrical appliances, which cause more blood to be drawn to the parts while being applied, but when the force has been removed the dilation of the veins is worse than before, owing to the amount of blood drawn to the parts by the electric current, which tends to weaken the walls of the veins, and anything that tends to weaken the walls of the veins dilates them, and renders them liable to be burst by strain. Hence it is seen how dangerous it is to apply electricity for the cure of Varicocele. No fact is better known than that electricity is the direct cause of the destruction of nerve force, owing to the reaction which follows the stimulation of nerve parts involved. There is always reaction after stimulation."

"Prof. Wunderlich, of the German Academy of Medicine, shows that nine cases out of ten under treatment for Varicocele were made worse by the use of electricity."

We wish to impress upon you the absolute truth of our method of curing Varicocele. Numbers of cases in this city have been permanently cured by us. We are at liberty to refer to them by name, and personally with them and ascertain the facts. Remember when we say NOTHING BUT AN OPERATION WILL CURE VARICOCELE. We perform painless operation and guarantee you an absolute cure. CORRESPONDENCE SOLICITED. Private Entrance on Second Street.

THE FOURTH

Make It A Day Of Enjoyment
Let the "Victor" Entertain You

If you would make your "Fourth" a day of genuine pleasure—at the beach or in your own home—enlist the willing aid of the Victor Talking Machine. Without a doubt the Victor is the greatest entertainer in the world. It sings and plays—hand, orchestra and vocal music. With it you can hear grand and comic opera stars, famous instrumentalists and the great musical organizations.

The Victor is easily operated—reproduces every shade and inflection of tone perfectly and is always enjoyable—you never tire of the Victor. Prices \$17.00 to \$100—easy terms if desired.

has been able to retreat along the shores of the Salton Sea. Special dispatches to The Times from Calexico last night report that the merchants of the twin towns of Calexico and Mexicali are packing up and getting ready to fly; wrecking crews are tearing down the best buildings, and the flood is eating up others.

The order issued by telegraph to the roadmasters by Engineer Tiltman 's taken by rail and indicates a surrender. It is a confession that the road must "move on" again. After these continued retreats, there seems to be no place else to which the Southern Pacific can go with its present track.

BUFFETED RAILROAD READY TO RETREAT?

Salton Sea Cutting Off the Southern Pacific's Main Line.

Rising Flood May Change Transcontinental Route, and Threatens to Engulf Many Towns—Little Left of Mexicali, and Wreckers Removing Calexico to Save It From the Waters—Drop Yesterday.

IN SPITE of an encouraging drop of nearly two feet in the Colorado River yesterday, the Southern Pacific is getting ready to retreat from its last stand in the desert.

Orders have been issued to all roadmasters and section foremen to abandon the work of fixing up the track on the last level to which the railroad

Will the Southern Pacific be driven out again, and finally, by the Salton Sea? Dotted line shows original track now in bottom of the sea. Water is now creeping toward present track on edge of sea. New line may be laid beyond the hills shown on map, the proposed cutoff being from Palm Springs to Mammoth. Mecca and a lot of towns above it appear doomed.

line was reached. Here this supposedly permanent line was laid along the base of the hills.

It was confidently expected that a grade had been reached at which the flood waters of Salton could be defied. For four months big gangs of section hands and mechanics have been at work ballasting and raising the new track, constructing cisterns, tanks and section-houses along a stretch of about forty miles—making it permanent.

But at the height of the work, the flood began creeping up again. For a while it was rising at the rate of three inches a day, now it has increased to six inches a day.

HOPE ON RANDOLPH.
The sudden drop in the river yesterday may delay the intended move. It may renew the hope that Epes Randolph, who is in charge of work at

CALEXICO IS MOVING; FLOOD TAKES DEAD.

(BY DIRECT WIRE TO THE TIMES.)

CALEXICO, July 2.—[Exclusive Dispatch.] Conditions here have not improved since the last report. The caving in of the river banks continues unabated. More houses in Mexicali have been washed away in the past twenty-four hours.

Only the width of a street now remains between the river bank and a thickly-settled portion of the town; here for a distance of a block is grouped about eighteen adobe houses, mostly residences, many of which are now being used as stores by merchants who were forced to move several days ago. It is only a question of possibly a few days before they, too, will be washed away, and then, with the exception of a few isolated buildings, Mexicali will have been wiped out.

Conditions in Calexico are alarming. The water is rapidly encroaching on the town, and those who have heretofore felt sanguine that it would cease are preparing to move. Building are being raised for removal, everybody being busy in this direction.

The tearing up of the tracks in the railroad yards continues, and a wrecking crew is here taking the depot down. The California Development Company is wrecking its office building. This is an adobe, and one of the best buildings in town. Considerable money has recently been spent in fitting up this building for the general headquarters of the company.

The blasting done yesterday, while widening the channel in that particular place, has proven of no benefit. The current of the river continues to wash away the east bank.

The California Development Company is making an effort today to break the current from the land adjacent to its property. Large cottonwood trees are being tied along the banks and weighted down with sacks of cement, and twenty Mexicans are shown cutting dirt on top of these. The force of

the intake of the Colorado, may be able to turn back the river's advance. At the rate the river was rising before this unexpected drop last night, the track will be under water within sixty days, and the Southern Pacific's transcontinental route entirely cut off.

Word came from Aras last night that the flood waters had been ordered to retreat there unsafe, and the Golden State Limited will be delayed several hours.

TOWNS SEEM DOOMED.
It is stated that the rising water in Salton Sea can now be seen from Mecca, less than ten miles away. At the present rate of rising, the towns like Mecca, Thermal and Coachella are due to be submerged within the next two or three years. It is even predicted that some of the outlying farms about Mecca will be threatened within six months.

These towns, which sprang into being because of the railroad, now place their faith in the river's desperate efforts to check the flood before it can reach them. They are waiting with some misgivings, however, to hear where the road means to retreat, for they fear it may change its course so radically as to leave them off the main line.

Every one is waiting anxiously for the next move on the part of the company, which must go somewhere if the water keeps on rising, and which seems to have no place left to move to.

An old survey running behind the mountains on the north and along sea level is suggested as the probable route for the new line. This begins at Palm Springs on the west, and joins the main line at Mammoth.

It has also been rumored that the Southern Pacific has been negotiating for the lease of the Santa Fe lines from San Bernardino aiming to cut across onto its own lines again at Maricopa. No confirmation could be had of this rumor at either the Southern or Southern Pacific offices in this city yesterday.

LARGER MAIN. LOWER RATE.

WATER BOARD AND INSURANCE MEN HAVE QUESTION.

Pacific Board of Fire Underwriters Insists on Six-Inch Pipe Sprinkler Connections, and Superintendent of Waterworks Advises Four-Inch. Joint Meeting Today.

A controversy is on between the City Water Commission and the Pacific Board of Underwriters over the installation of automatic sprinklers, the matter having an important bearing on the protection of the Los Angeles business district against fire.

If William Mulholland, superintendent of the waterworks, is not too tired this morning, upon his arrival from Washington, D. C., the matter will be thrashed out today at a joint meeting of the underwriters and the Water Board. At the regular meeting of the Water Board, held yesterday afternoon, a communication was received from Surveyor Alexander Field, of the underwriters, asking that this joint meeting be called today, as it is imperative that Engineer W. C. Robinson of the National Fire Protective Association, who came from San Francisco for this purpose, return North tonight.

On the advice of Superintendent Mulholland, the Water Board two weeks ago refused to allow a six-inch main to be connected with the sprinkling device installed in the Western Wholesale Drug Company's building, and as a result, the Board of Underwriters refused to close an insurance contract with the drug company until the point at issue could be settled.

Superintendent Mulholland takes the stand that a four-inch main is large enough for the sprinklers, and insists that should the six-inch main be used it would result in a serious drain on the city water mains in case of fire.

"The proposition is just this," said Alexander Field yesterday. "If the automatic sprinklers approved by the Board of Underwriters are installed with a six-inch connection, the Board of Underwriters agree to a discount of 20 per cent. from the building rate and 25 per cent. on the insurance of the contents of mercantile buildings, and further agrees that the insurance shall be exempt from the 25 per cent. horizontal rise that has been established in the rates. We can agree to this only on the basis of a six-inch main."

"We cannot see any possible objection to the six-inch mains," said Chief Engineer G. M. Robertson of the underwriters. "Mr. Mulholland's point that water would be wasted by the automatic sprinklers with a six-inch main is not well taken, because every connection will have a stop cock in the street. The automatic sprinklers will go farther to protect the business portion of the city than any fire breaks, such as have been talked of for San Francisco, and we maintain that the sprinklers will actually economize the amount of water necessary to put out a fire."

"I would like to compare the fighting of the fire in a big dry goods store with and without sprinklers," said Chief Engineer G. M. Robertson. "In the former case, as soon as sufficient heat or flame comes in contact with the sprinkler, the seal melts and the stream of water is turned out entirely. The opening of the valve rings an alarm, and the enunciator indicates to the night watchman the location of the fire. As rapidly as the flames spread these signals are opened. Most of the stores seeking to be equipped with this system need 200 heads. A six-inch main is necessary to supply this number. Now it is hardly probable that all 200 heads will be opened at any one fire, but even if they were there is still an economy of water."

"In the latter case, without the sprinkler, the fire breaks out, spreads quickly and filling the room with smoke. Upon discovery, the fire department is summoned, windows are broken in, creating a draught, and the great streams of water are turned into the dense chaos of smoke. An engine pumps 250 gallons of water a minute; four lines of hose will use 20,000 gallons of water in twenty minutes—a greater amount of water and doing far more damage than the automatic sprinklers can be charged with. Six-inch mains have been granted, two in the Homer Laughlin building and one in the Coulter Dry Goods Company. In cases like these, Mr. Mulholland is not granted in other cases. The Board of Underwriters is not trying to boom the sprinkler business. The only thing we have in the matter is that it will enable the insurance companies to give lower rates and grant larger amounts of insurance. With the issue is a very important one, and we have asked for an audience with the Water Board to prove our contention. Large insurance contracts are at a standstill, pending the granting of six-inch main connections."

CITY SECURES AN ENGINEER.

Lippincott Resigns From Government Service.

Will Assist in Carrying Out Owens River Project.

Long Experience in Waterworks Engineering.

J. B. Lippincott, Supervising Engineer for the Pacific Coast District of the United States Reclamation Service, and Hydrographer of the United States Geological Survey for California, has resigned from the service of the government to take up the private practice of his profession, and in all probability will be engaged by the city of Los Angeles to carry out the Owens River project in association with Engineer William Mulholland.

Mr. Lippincott's thorough knowledge of the hydrography of the Pacific Coast and his experience in the construction of municipal waterworks will be invaluable to the city, and his engagement is virtually a certainty, although it has not been officially announced. For some time he has had in contemplation the step just taken, largely because the government work was compelling him to give up private

the corporations tried to get his official scalp. Gifford Pinchot, chief of the Forestry Bureau of the Department of Agriculture, whose influence was potent in getting the Owens River matter placed properly before President Roosevelt, writes to Mr. Lippincott:

"I am exceedingly sorry to hear that you are going to drop out of the Reclamation Service. Your service to it has been so great, and your personal sacrifice in order to do the work is so conspicuous, that I associate you with Reclamation almost as completely as I do Newell himself."

EXPERIENCE IN HYDRAULICS.

Under Engineer Lippincott's supervision, the two principal reclamation projects of the Pacific Coast, the Klamath and the Yuma projects, have been inaugurated and carried out to such stages of construction that their completion is only a matter of more work along lines already proven. The Klamath project provides for the irrigation of 250,000 acres of land in Oregon and Northern California. The Yuma project is controlled by the Laguna dam, a stone structure 450 feet long and 24 feet wide across the Colorado River above Yuma, which is about half completed.

The Laguna dam is similar in construction to dams that have stood the test of centuries in India, and it will stand unless the runaway Colorado cuts back to its base, a contingency that was foreseen by the engineers and brought to the attention of the government when the river first broke out of its old bed at the Mesquite intake.

In addition to the reclamation works, Engineer Lippincott has supervised the construction of numerous municipal water systems in California. He has served as consulting engineer for construction and operation of waterworks in San Francisco, Fresno, Santa Barbara, Pasadena, Long Beach, San Pedro and other towns.

Santa Barbara is now carrying out

practice, but the attacks made upon him by the interests opposed to the Owens River project moved him to postpone final action until his position in that matter was vindicated and approved.

PUBLIC SERVICES APPRECIATED.

Mr. Lippincott's course in relation to the Owens Valley projects was approved in Washington, notwithstanding the attacks made upon him by the power companies and some of the valley people. Last February, when the campaign against him was being carried on most actively, F. H. Newell, Chief Engineer of the Reclamation Service, wrote to Director Wolcott, of the Geological Survey, of Mr. Lippincott in these words:

"He has put into the work of the Reclamation Service the energy, zeal and effectiveness for which he has always been noted, and has brought about on the west coast such recognition of respect for the operation of natural forces that the results have attracted the attention of all citizens. At the same time his personal advocacy of popular control of natural utilities has made a few enemies, among them the men who are seeking to monopolize the water powers of the checking the water powers of the State, and they are industriously seeking to undermine his strength."

"If he goes now there will be a strong belief that he was forced out indirectly because of devotion to right of principles, and the people of this State will regard this as a defeat of honest efforts for the public good."

"KNOCKING" THAT FAILED.

The same influences and corporate interests that were found trying to block the city's right of way through Owens Valley, and were defeated by President Roosevelt, were behind the attacks made upon Engineer Lippincott. One of the power companies had a particular grievance against him, because he prevented the corporation from acquiring the reservoir site and great streams of water now controlled by the city. Engineer Newell knew what he was talking about when he claimed that the assaults of Mr. Lippincott "the men who are seeking to monopolize the water powers of the State."

Mr. Lippincott was consulting engineer for a power corporation, but when he discovered that the projects of the company were in conflict with the work of the Reclamation Service, he resigned the private engagement and did his duty as a government servant. Later, when the question of public use of the waters of Owens Valley arose, Mr. Lippincott, consistently and in strict accordance with the policies and principles of the service, advised that greater public benefits would result from the city's project than from the reclamation project. For that he was assailed by the disaffected land speculators of Inyo and ostensibly for that, but really for his previous obstruction of the power company's attempt to monopolize the water, and the power of Owens River,

J. B. LIPPINCOTT, and the twenty-one pound trout he caught in Klamath Lake.

the project recommended by Mr. Lippincott, involving the construction of a dam and reservoir on the Santa Ynez River and the boring of a four-mile tunnel through the mountains, at a cost of about \$500,000. The tunnel has been driven a mile already. Considering the population of Santa Barbara, her water enterprise is as ambitious as the Owens River project.

BIOGRAPHICAL SKETCH.

From "Who's Who in America" are obtained these biographical data concerning J. B. Lippincott. He was born in Scranton, Pa., October 10, 1864; attended Dickinson College, Pa., two years; graduated from the University of Kansas in 1887; was in railroad work with the Santa Fe from 1888 to 1889; topographer U. S. Geological Survey, 1889-92; assistant engineer Bear Valley Irrigation Company, 1892; in charge various irrigation investigations in California 1892-4; hydrographer U. S. Geological Survey since 1895; supervising engineer U. S. Reclamation Service for Pacific Coast; Civil Service Commissioner for Los Angeles; member of American Society of Civil Engineers.

Mr. Lippincott is also a sportsman, particularly a fisherman. In proof of his prowess, he brought from Klamath Lake last week an authentic photograph of a twenty-one pound trout landed with a ten-ounce rod in Pelican Bay on June 25. The fish measured 32 1/2 inches in length and 2 1/2 inches in girth, and weighed 21 pounds, 11 ounces. It was the largest trout ever taken in the record trout of Klamath Lake.

WHAT POSTOFFICE CLERKS DO.

During June there were received in the directory and general delivery section of the Postoffice 338,210 pieces of unaddressed mail, an average of 11,267 per day. This mail was searched through the directories and orders filed for the delivery of mail. It was disposed of as follows: Number of pieces forwarded to points outside of the city, 25,550; marked up to street address, 134,440; delivered through general delivery, 151,620; number of patrons who have a second-class subscription, 191,348; number of average call on the general delivery each day of last year, 1,000; change of addresses.

SCHOOL'S HOP AFTER PUPILS.

Manzana District Runs Out
of Young Ideas.

Plan to Move It Many Miles
Across Desert.

Brood of Children Awaits
Word of Supervisors.

If six children in a single family in the far-away wilds of the uttermost corner of distant Del Sur township, mingled in the magnificent distances of sweeping Antelope Valley at the extreme northern end of Los Angeles county, will wait a few weeks, maybe the Board of Supervisors will move the Manzana school to their very door. Then they won't have to hike thirty miles or so across the desert. In quest of the pabulum led out for them by the County Board of Education.

If the children do not signify an intention of remaining, the Manzana school will become a thing of yesterday instead of a possibility of tomorrow. The school is on its last legs.

Children of school age simply have

perched out in the vicinity of Manzana school, and the law decrees that the school shall close unless more young ideas can be found.

County School Superintendent Mark Keppel has brought forth a young idea that may save the school. He would make it perpetual. Let the constitution follow the children, says he, and let the school follow the child.

REACH OUT, HE SAYS.

When one of the fertile reaches of Antelope Valley runs out of children, he suggests that the little red school house (which isn't red at all in California) be moved into a region where the residents subscribe to the tenets of President Roosevelt regarding anti-race suicide.

Mr. Keppel has recommended to the Supervisors that the Manzana school be moved thirty miles across the desert to another portion of the district, where he has found a family of children that would go to school if they had a school nearer than from Los Angeles to Pomona.

When these children, shall have been properly schooled, why, just jump the Manzana school a few miles more into some other section where children meantime will have had a chance to grow up.

Sessions of the school now are held in a shack in the hills, in what is known as the Blanchard orchard. It is in the southeastern portion of the school district. The ranchers for miles thereabouts if one seeks far enough, get their mail at a crossroads store that serves as the Manzana postoffice. The nearest railroad town is Lancaster, about twenty-five miles away.

THIRTY-MILE JUMP.

Mr. Keppel's recommendation is that the Manzana school be moved thirty miles, to the west side of the district. The father of the six children has a house on the wagon road to Bakersfield, some distance south of Gorman's Station. He will give the use of the house for school purposes provided the Supervisors will sanction the move, and it is up to them now to act on the superintendent's suggestion.

There were four pupils in the school in the term just closed and if the school be not permitted to lapse it is promised that the attendance in the new location will be the half-dozen already mentioned and possibly three or four more.

Manzana is the last leaf of what once was a flourishing tree of knowledge in that particular part of Los Angeles county—for this does not pertain to the desert wastes of Nevada nor to the arid expanse of Arizona, but to the Imperial county of Los Angeles.

One by one they fell, Dry Lake first, then Del Norte, then La Liebre. Now Manzana is about to go on wheels.

Fifteen years ago these schools hummed with the voices of children, the recitation of their lessons. These pupils grew up and others succeeded them and it was expected that in time more schoolhouses would have to be built.

CHANGES OF THE YEARS.

Within the last four years, however, three schools have lapsed. One of the buildings was sold, another was hoarded up, while the third fell into decay. The abandoned schoolhouse merged with others, and now Manzana faces the fate of the rest unless it is moved.

A new district could be formed, says Mr. Keppel, but not until October. Then a new district could be formed where the necessary number of children could be found, but this would be too late to get an appropriation, wherefore the school would not be available for another year.

Meantime the six children of the rancher on the Bakersfield road are awaiting the decision of the Supervisors.

There are twelve county schools in the Antelope Valley country and to make the circuit of them requires a journey of 350 miles by wagon from the railroad station at Lancaster.

When Superintendent Keppel starts out on his annual inspection tour of the schools in that section, he travels about as far as from Los Angeles to San Francisco, for his railroad journey is one of about 150 miles. It takes five full days to make the rounds, drive as hard as he may.

AMERICA CALLED TO TIME.

ST. PETERSBURG, July 2.—The Novor Vremya, discussing the resolution adopted by the United States Congress relative to the Bialystok massacre, calls attention to American treatment of Jews, affirming that they are excluded from the service of the State and that they are as rare as Chinese in the universities. The article further alleges that the United States immigration restrictions based on diseases of the eye and scalp are designed with the intention to bar Jews from America.

BIG CHANGE
IN THE CITY.New San Francisco Will Be
Unlike Old.General Readjustment of
Property Values.Downtown Districts Are Ones
to Suffer.

SPECIAL CORRESPONDENCE OF THE TIMES.
SAN FRANCISCO, July 2.—Now that
some order has been restored out of
the chaos that followed the April fire,
observers are enabled to form ap-
proximately correct opinions as to fu-
ture conditions in San Francisco. Three
things are becoming apparent: Here-
after the entire business of the city
will not be transacted in a congested
area having "newspaper row" as its
center; there will be important retail
business scattered throughout the re-
mote portions of the city, and more
important than any other change, there
will be a general readjustment of
property values in which the down-
town district will suffer, to the profit
of the rest of the city.

The permanent character of some of
the business buildings being erected
on Van Ness avenue, Fillmore street
and intersecting thoroughfares, to-
gether with the long terms for which
they are being taken, make it certain
that hereafter much of the business for-
merly done along Market street and
in its vicinity will be transacted in
the large area bounded by Fillmore
street on the west, and in the Mission
district on the east, that were formerly
entirely to residences will be
covered by stores, shops and hotels.
The living in the vicinity of Golden
Gate Park will not be compelled to
suffer when he desires to at-
tend a theater or patronize a high-
class restaurant. Permanent resi-
dences will be erected in the large
area that will be among the best in
the city are going up in various loca-
tions west of Van Ness avenue. Here-
after neither the day's traffic nor the
night life of the city will be focused
about the intersection of Market and
Lombard streets or the red light district.
This extension of the business area
is certain to have a far-reaching ef-
fect upon real estate values and ren-
als in what, previous to April 15, was
the heart of the city. With a widening
of the commercial district must come
an equal adjustment of monetary
value of property and the owners of
downtown skyscrapers will not in the
new San Francisco be enabled to im-
pose exorbitant rentals because all of
the heart of the city centers in the vi-
cinity of their holdings. Shrewd finan-
ciers realizing this fact, are already
taking up land between Fillmore and
Market streets and in the Mission that
the past has been deemed suitable
for cottage sites. Their activity
tending values in the new business
land upward by leaps and bounds,
at prices that lately were unobtain-
able. Speculative and temporary are now
based upon as in the nature of bar-
gains. The man who lost no time in
securing a long-term lease upon
a residence site that, before the
disaster, was rented for \$50 a month, but
which he was enabled to offer ten-
ants at a figure, is no longer regard-
ed as a fit subject for the financial
press.

The location of many downtown prop-
erty owners, in insisting that former
rental pay rentals as high as or high-
er than those prevailing before the
disaster, is assisting materially in bring-
ing about the changed conditions. Busi-
nessmen who rent buildings are no
longer at the mercy of the Market-
street capitalists. Confident that the
new district will not in the future be
subject to its former contracted
rentals, they are making favorable
deals with lot owners in the new re-
sidential sections and preparing to per-
manently change their fields of operation.
Some of the downtown property own-
ers, realizing the situation, are taking
steps to retain their former tenants by
offering easy terms for the first few
years of the reconstruction and are
endeavoring to induce their neighbors
to do likewise. But, while these men
of capital are thus enabled to retain
their erstwhile tenants, their general
effect is being balked by the policy of
the others, who are not enamored of
the thought that the earning capacity
of their realty should be lessened even
temporarily.

The insistence of the municipal au-
thorities upon limiting the height of
buildings is another cause toward the
readjustment of values. What the
business district of the new city will
be in height, it will make up in area.
The boundaries of the commercial
section are extended, there is a stimu-
lating widening of the residence por-
tions of the city and a corresponding
increase in the value of suburban lots.
One effect of the readjustment will
be the change wrought in the mode
of life of the populace. Where before
the downtown district was the center
of the city, hereafter each residence section
will have its own business and amusement
center and will live more within itself.
The Mission, the Panhandle, Richmond
and other similar districts will, be-
cause within a city dependent upon
Market street only as their original
source of supply.

July Premium Sale.
Pianos, Organs, Talking Machines, Music
Boxes, Violins, Guitars, all at reduced prices.
Five pieces of popular music for 5c this week
and next at the
BARTLETT MUSIC COMPANY,
215-217 E. BROADWAY,
OPPOSITE CITY HALL.

Index to Times Postoffice.
Answers to the Times classified advertise-
ments, unclassified and remaining in the
Times postoffice at 11 o'clock a.m., July 2,
are shown in the classified list on first page
of the "Index" advertisement.

For convenience of "Index" advertisers using
box number addresses for answers to their ad-
vertisements addressed in care of The Times
postoffice, a list of letters in each box will be
published daily. They are printed in order
that patrons may be saved time and cost of
making unnecessary trips to the Times office.

Nervous?

There are many causes of nervous-
ness, but poor blood heads the list.
The doctors call it anemia. The blood
lacks red corpuscles. At your first
opportunity, consult your doctor about
taking Ayer's Sarsaparilla. Ask him
if he has anything better for weakness,
debility, nervousness. If he has, take
it. If not, take Ayer's Sarsaparilla.
Get well, that's what you are after.

Clancy, a lot 50x122 feet, northeast
corner of Pico and Valencia streets,
improved with a one-story brick store
building and two frame cottages; con-
sideration \$15,000.

Lucinda McCoy to Arthur J. Little,
lot 150 feet on Adams street by 145 feet
to an alley on Seventh avenue, the
northeast corner, unimproved, \$7000.

Dr. F. A. Sanborn to L. R. Wolf lot
on west side of DeFrees street, 200 feet
north of Sunset boulevard, \$500. Pur-
chaser will improve with a home.

Western California Land Company
to Elsie Seipp, lot on west side of
Crenshaw boulevard, 225 feet north of
Adams street, 50x150 feet, \$750.

Fernandez & Prather report these
sales: Lot 40x181 feet, with two-story,
eight-room new house, No. 1540 Beren-
do street, S. A. Roberts to L. J. Miller;
consideration \$1800.

follows: L. F. Pettiford to W. H. Pow-
ler, six-room bungalow, No. 2573 West
Twenty-third street, \$5850; bought for
a home.

Mrs. William Shipley to Charles E.
D. Bunnell, seven-room cottage, No.
1023 West Twenty-first street, \$4000;
for a home.

AMBASSADOR IN MEXICO MOVES.
MEXICO CITY, July 2.—Ambassador
Thompson has moved the American
Embassy to a palatial building on
Congress avenue, a house of recent
construction, with twenty rooms and
ample accommodations for the grow-
ing work of the embassy. The United
States has never before had its diplo-
matic representative so handsomely
housed. The old quarters in Buena
Vista had been occupied some nine
years. American residents in the
larger interior cities will observe the
fourth of July with balls, picnics,
reading of the Declaration of Indepen-
dence and speeches. Ambassador
Thompson will deliver an oration at
the celebration in this city, at which
President Diaz will be present.

July Premium Sale.
Pianos, Organs, Talking Machines, Music
Boxes, Violins, Guitars, all at reduced prices.
Five pieces of popular music for 5c this week
and next at the
BARTLETT MUSIC COMPANY,
215-217 E. BROADWAY,
OPPOSITE CITY HALL.

Will occupy the N. E. Corner of Third and Spring Streets
(Stinson Block)
About August 1st

—OUR—
Predictions Verified

The Southern Pacific Railroad obtained
yesterday from the city the land which was
required to form the Entrance into the New
Union Depot.

What does it mean? It means that the largest
Union Depot west of St. Louis will be built at the
foot of Fifth Street.

It means that the erection of this
building will be electrical in its effect
upon realty values in the great commer-
cial district east of Main.

It means that OUR PREDICTIONS
HAVE BEEN VERIFIED.

CUPS AWARDED IN AUTO RUN.

Thirty-seven of the Starters
Have Perfect Scores.

Los Angeles-Made Tourist
Car Wins Two Firsts.

Good Economy Results in All
Classes of Cars.

Class A, cars selling for \$2500 and up, won by No. 53, Pope-Toledo limousine, owned by Mrs. Charles E. Anthony. Endurance score, 1000; economy score, 28.532.

The Times cup, won by No. 83, Dolson, owned by J. F. McNaughton. Endurance score, 1000; economy score, 42.307.

(Class B cars selling for \$1500 to \$2500.)

Class C, cars selling for \$1500 or less, won by No. 69, Tourist, owned by Auto Vehicle Company. Endurance score, 1000; economy score, 45.161.

Class D, runabouts, won by No. 5, Buick, owned by Earle C. Anthony. Endurance score, 1000; economy score, 22.631.

Economy cup, won by No. 54, Frayer-Miller, owned by E. H. Frayer. Endurance score, 1000; economy score, 45.627.

Examiner cup, won by No. 69, Tourist, owned by Auto Vehicle Company. Endurance score, 1000; economy score, 45.161.

The greatest automobile endurance run in American history of the game now passes into finished form by the announcement of the official scores. It was a remarkable run in many ways, in the number of entries, in the number of actual starters, in the absence of any serious accident to contestants or others, and in the efficient way in which it was managed. The scores show that it was a remarkable run in the number of cars that ran perfectly. It is a great tribute to the advance in automobile construction that 37 percent of the starters had no trouble in a run of 175 miles, so that gas consumption practically became the basis of the awards. It marks the trend of manufacture. Speed, a year or so ago the hall-mark of the successful car, has now given way to reliability and low cost of maintenance. Nothing so emphasizes the change as the results of this run, the greatest in the United States. The following table tells the story:

No.	Class	Car	Cylinders	H.P.	Owner	Endurance Score	Economy Score
1	D	Prayer-Miller	4	18	E. H. Frayer	1000	45.627
2	D	Prayer-Miller	4	18	E. H. Frayer	1000	45.627

11500 or less, and five in the runabout class. The highest priced and the lowest priced touring cars showed the best, with the runabouts next and the moderate priced cars at the tail end. In class A, 80 per cent of the entrants made perfect scores; in class B, only 24 per cent; in class C, 43 per cent, and in the runabout division, 26 per cent. This is partly explained by the hard luck of the run, which seemed to fall more heavily on the moderate priced cars.

THE WINNING CARS
The winner of the open class was the only limousine in the run, and so far as known, the only limousine that ever took part in an endurance run. It made an economy score far in advance of any other perfect performer in its class, and one that compares favorably with any of the most economical cars.

A new-comer in the local field, the Dolson, won out in the next class. It certainly has made a good beginning, for its economy score was higher than any of the perfect performers, except the Tourist car No. 69, which won the general efficiency cup.

The Tourist car showed up as well as they did in the Pismo run. Eight of them made perfect scores, and the captured two cups, the moderate priced class and the general efficiency cup.

The aura of the special finisher, Earle C. Anthony's specially finished Buick, won the runabout class. It looks like a cat having a fit in a dish of tomatoes, but it seems to have the proper goods tucked away in its inside.

AND THE LOSERS.
It is remarkable that most of the losers were of the lower level, though some went to the lower level through carelessness in operation or hard luck. Strict interpretation of the rules penalized many cars that were in form to get better. E. H. Frayer's Miller was a good example of this. To prevent a collision he stopped his car suddenly and stalled his engine. It cost him one minute to start it again, and this one minute lost probably lost him two cups. As it was, he was

gates for next tire equipment. I do not feel that this car is entitled to a perfect score, but under a strict interpretation of the rules, 1000 points is awarded.

"Car No. 104 sent to Los Angeles for new tire equipment. I feel that this car should be penalized 160 points, but under a strict interpretation of the rules I must award it a score of 840 points."

RUN OBSERVATIONS.
THE COMMITTEE'S VIEWS.
The endurance run committee of the Dealer's Association, after completing the two days' work on the scores, has issued an open letter reviewing the run and making some observations on it.

The letter, signed by the Los Angeles Automobile Dealers' Association Endurance Run Committee, L. T. Shetter, chairman; Earle C. Anthony and Fred A. Bennett, says:

This committee wishes to express its thanks to the donors of the beautiful cups, to the second annual endurance run committee of the Los Angeles Automobile Dealers' Association, and to the participants of this, the largest endurance run that has ever been held in this city.

Not have been penalized for this stop. Other cars were penalized a few points for such stops being made off.

We are more than pleased to note that there were but two or three cars fined in the run, and that the majority of the cars were not penalized for any reason.

We are also pleased to note that there were but very few cars that did not make the complete trip owing to breakdown or accidents.

It would be too much to expect to have every participant in this run agree thoroughly with the committee and the judges as to their official scores. We only wish to state that we have done our duty in the most thorough manner, and we are confident that the results of the run are a fair reflection of the actual performance of the cars.

We have treated them all alike and we ask that they treat them all alike. We have accepted the responsibility of accepting the results of the run, and we have accepted the responsibility of accepting the results of the run.

We have accepted the responsibility of accepting the results of the run, and we have accepted the responsibility of accepting the results of the run.

We have accepted the responsibility of accepting the results of the run, and we have accepted the responsibility of accepting the results of the run.

We have accepted the responsibility of accepting the results of the run, and we have accepted the responsibility of accepting the results of the run.

We have accepted the responsibility of accepting the results of the run, and we have accepted the responsibility of accepting the results of the run.

The Dolson

"A truly royal car."

Winner of Cup

IN CLASS B

Touring Cars to Cost at Factory List of \$1500 to \$2500

The endurance run of the Automobile Dealers' Association was a marvellous demonstration of automobile efficiency. The victory of the Dolson is evidence of highest value, when, with as large a number of competitors, it makes a perfect score of 1000 points, and wins on efficiency and economy in its class.

A performance that is possible with you at the wheel. Simple and perfect in operation. Economical in up-keep. Dependable always and a real luxury in riding quality.

ROMAN NEARLY BURNED ALIVE.

GASOLINE CAUSE OF MYSTERIOUS BLAZE.

Pasadena Resident, Cleaning Gloves, Suddenly Finds Himself Burning. Cause of Ignition a Puzzle—Bystander Misforms Fireman, and Building is Nearly Destroyed.

Office of The Times, No. 38, Raymond Ave.

PASADENA, July 2.—Gasoline, this morning, caused a fire which destroyed property to the value of \$5000, burned Mrs. Charles Coleman of No. 184 South Los Robles avenue so seriously that she had to be removed from the scene of the accident in an ambulance and resulted in Calman Bassett of the Fire Department receiving a severe shock from a live wire.

Mrs. Coleman was cleaning some gloves with gasoline on the back porch of the flat in which she and her husband reside. The nearest fire was in the kitchen stove which was more than ten feet away, and how the gasoline managed to explode is a mystery. The first warning that Mrs. Coleman had that anything was wrong was when her husband, who was standing by her side, saw a flash of light and heard a popping sound. She then noticed that her clothing was blazing.

Mrs. Coleman rushed from the veranda, and in her fright entered the residence of Mrs. P. P. Senour, the owner of the flat building. With great presence of mind, Mrs. Senour tore the burning garments from the woman's body and thus saved her from what otherwise undoubtedly would have been a fatal injury.

Sherry was at once summoned and after relieving the injuries of the sufferer called an ambulance and had her removed to the residence of Mr. Coleman's mother on South Madison avenue.

The flames from the burning gasoline spread rapidly to the adjoining woodwork and within a few moments the entire second floor of the house was ablaze. An alarm was given and the firemen were called.

The fire was out and that no more water was being used. The engine was disconnected and valuable time was lost before the hose was again made ready for use.

What it was finally seen that the fire was beyond control, several bystanders rushed to the assistance of the firemen and did all in their power to save the furniture and other valuables.

In the course of the excitement, D. B. Bassett, chairman of the fire department, came in contact with a live wire and received a shock. Luckily, he was thrown down by the shock and thus escaped the full force of the current. He was not seriously injured.

The extent of the fire either was not appreciated at the start, or no one thought of running down the stairs to the Villa street company did not arrive until the blaze had burned itself out.

The burned building belonged to Mrs. P. P. Senour, and the condition of the damage done by the fire and water will amount to about \$5000 while the owner carries insurance to the amount of \$5000.

HOTEL LAWN FETE.

A lawn fete was given this evening on the grounds of La Pintosa Hotel. The many large pines, magnolias, palms and camphor trees were hung with lanterns and the long verandas were brilliantly illuminated.

The function was a benefit for the All Saints' Episcopal Mission, which recently had its beginning in North Pasadena. The attendance was good for the interest taken in the new church. There were all the devices for entertainment to be thought of by the young society, and the guests were made to make the fete a success. There were a number of gypsies in picturesque costumes who told delightful fortunes while a palmist at a cozy corner read the future in the lines of the hand.

The gypsies were Misses Pauline Luis, Dorothy Masters, Randolph Luis, Letha Luckey and Claire Luckey and Mrs. Hugh Montgomery. Miss Williams was palmist.

BIG FOREST FIRE.

A serious forest fire in the government forest reserve, north of Altadena, broke out early this afternoon and for several hours four solitary forest rangers were kept busy trying to prevent its spreading. There was no chance to go for assistance and the plucky fire fighters kept heroically at work until the smoke from the blaze attracted the attention of Altadena residents and brought assistance.

As soon as the word got out that there was a blaze in the mountains, volunteers in large numbers hurried to the assistance of the rangers and at one time there were sixty men at work fighting the onrush of flames. Late this evening the fire had been gotten under control and unless a strong wind springs up the danger is past.

WHEEL THIEF CAUGHT.

Bert Spicer, a man about 29 years old, was arrested this afternoon by Officer Pierce on a charge of stealing a bicycle. The follow rode out from Los Angeles, and as he was a typical hobo in appearance, Pierce kept him in sight, and followed him to Pasadena, where he confessed that he had stolen the wheel in Los Angeles. According to the story told by Spicer, he had only been in Los Angeles three days, having come down from San Francisco. He stated that he and three other men had formed a partnership for the pur-

CANNED CHICKEN CHARMIS CHILDREN.

TWO LONG BEACH GIRLS NEAR DEATH FROM PTOMAINES.

Eating of Meat Pie by the Little Folks is Followed by Violent Illness and for a Time it is Believed They Will Die—Physician Labors for Hours.

LONG BEACH, July 2.—A pie made of canned chicken caused the serious illness of two children here last night for a time it was believed that they would die.

The family of Lloyd W. Moultrie of Los Angeles arrived here recently to spend the summer. They reside on Chestnut avenue.

Last night the two children, Elizabeth, aged 4, and her sister, 2 years old, were taken violently ill. A physician was summoned and he found that the children were suffering from ptomaine poisoning.

After several hours' work the children were relieved. It is thought that the day that they will recover. The poisoning was traced to a pie made of canned chicken of which the children had eaten with gusto.

BIG DINING WEDNESDAY.

Long Beach is expecting the greatest crowd in her history on the Fourth, and has made preparations accordingly. A fund of several thousand dollars has been raised to be spent in entertaining the visiting throngs.

The city is well along in their work, and the streets are gay in bunting, flags and pennants. The chief event of the day will be the annual parade of floats, patriotic and secret societies, militia and school organizations.

Thus far, twenty-eight entries of floats have been made. Among the uniformed companies will be the Pomona High School Cadets, the Seventh Regiment, Uniform Rank, K. of P. Sons of Veterans, military reserves, and G.A.R. Five bands will participate.

At noon the South Coast Regatta will begin. These races are for the Times trophy cup, class B and C, and three events for the Pomona Regatta. Prizes are offered for first, second and third winners.

Beginning at 2 o'clock the gymnastics sports will start on different streets in the business part of town. These races include obstacle, sack, potato, three-legged events, relay dash and pole vault. The Pomona Regatta will be held at the business part of town. These races include obstacle, sack, potato, three-legged events, relay dash and pole vault.

During the afternoon and evening dances will be given in both the auditorium and sun parlor. There will be a display of fireworks from a barge anchored in front of the city. Beyond the line of the city, a large display of fireworks from a barge anchored in front of the city.

LITTLE NEWS NOTES.

What threatened to be a serious blaze was started in the Arroyo Seco this morning by a fire. Two young boys who were playing with a match, the time noticed the fire and finally succeeded in extinguishing it.

The Police Commissioners this morning authorized the sale of all unclaimed articles now in the possession of the police which have been on hand for the required length of time. The authorities at the Police Station hall the new order with ease as it will enable them to clear out the basement.

The "dog" legend of the City Tax and License Collector was kept busy all day today passing out tags and issuing dog licenses. Licenses were due July 1, but as that date fell on Sunday the bulk of the work came today. Up to 2 o'clock this afternoon the collector had issued and received still a long line of people waiting to receive their slips of paper and pay over their \$1.50.

At the meeting of the board of City Commissioners this morning the monthly report of Chief Pinkham was received and accepted. The report showed that thirty-three dogs had been made by the department during the month past and that fines had been collected to the amount of \$38.71. Demands to the amount of \$278.71 were received and approved. The demands were \$25.00 for the property of a dog, \$102.65 for fire department, \$136.66, Parks, \$32.00.

Fry and Cook with the great vegetable shortening—the richest, sweetest and cleanest—absolutely free from animal matter of any kind. QUART AND GALLON CANS AT GROCERS.

have been sold, double the number sold last year at this date.

At noon yesterday a diminutive Japanese stepped off a car at American and Ocean, and into the arms of Officer Carson, who arrested him because he was about to take a walk and a quart bottle of whisky. When an interpreter was called it was found that the prisoner, N. Orahito, was an inmate of the California State Prison at San Quentin.

ATTELL TRAINS LIGHTLY. Abe Attell, the featherweight champion who is training at Arcadia for the match with Frankie Neil on July 4th, knocked off the day's routine after the morning run from Arcadia to Monrovia and return. He will do no more training until after the fight. The latest picture of him taken this morning shows him to be in excellent condition. With a party of friends he enjoyed a tailspin drive this evening to Pasadena.

AGED WOMAN DIES. Mrs. Sarah E. Root, an old and respected resident, was seized with an attack of heart failure yesterday morning while seated at the breakfast table and expired almost instantly. She was 69 years of age and had been a resident of Long Beach twelve years. Two sons and a daughter survive her.

CAR TRUCK BLAZES. The 12-30 Pacific Electric car going north became short circuited on American avenue today and when it stopped at Tenth to discharge passengers, the entire truck was blazing furiously. People hurried to the rescue and soon extinguished the flames.

LONG BEACH BREVITIES. W. J. Morrison of Bellare, O., has been elected assistant cashier of the State Bank of Long Beach.

Observance of this city, on Sunday, a very pleasant surprise. Saturday afternoon, forty of her friends and neighbors gathered at her home to bid her "Godspeed" on the journey she was about to take. Merry games were played, followed by a short musical programme and refreshments.

Dr. and Mrs. Ralph W. Avery of Fair Oaks avenue entertained a party at dinner at Hotel Maryland in Pasadena Saturday evening. The invited guests were Mr. and Mrs. Edwin Hubbard, Dr. and Mrs. Edward H. Hubbard, Dr. and Mrs. Francis F. Rowland, and Mr. and Mrs. Valdey.

Dr. and Mrs. J. W. Moore and Mrs. Bertha Moore will leave next week for the East. They will spend the summer in Philadelphia and New Jersey.

Mrs. J. H. Freeman of Oak Street and her son, Henry, left today for San Diego, where they will spend a week with her daughter, Mrs. Clarence Austin.

Mrs. John A. Finney left today for Iowa, where she will visit her daughter.

The Misses Mary Reinberg, Stella Dixler, Margaret Knapp and Virginia Dobbs, arrived in this city today from Los Angeles. They will spend the next six weeks visiting the families of G. W. Lawler, R. E. Thomas, I. O. Patterson and other South Pasadenaans, formerly of Los Angeles.

Rev. and Mrs. C. W. Her and Little son left today to spend a month at Long Beach.

Mr. and Mrs. J. E. Carson and Mrs. Rebecca Carson will leave tomorrow morning for Dayton, O., and other eastern cities, where they will spend three months visiting relatives and friends.

Coronado climate is perfect.

An Extraordinary Offer

The Bartlett Music Co.

CLIMATE AND DISEASE.

Expert Coming to Found Institution

and Study the Effect of the One

Upon the Other.

Dr. Boardman Reed has resigned his

professorship at Temple College, Phila-

delphia, to take up work in southern

California. It is his intention to es-

tablish a sanatorium at Alhambra and

devote the rest of his life to medical

literature and study of California cli-

mate.

Six months ago Dr. Reed was in

Southern California, and was deeply

impressed with the favorable climatic

conditions. He spent some time in the

San Gabriel Valley, going from place

to place. Alhambra in particular ap-

pealed to him, and he made negotia-

tions looking to the establishment of

an institution as he desires to

found. The sanatorium will be part of

the nature of a clinic also, as Dr.

Reed wishes to study the effect of cli-

mate on certain diseases.

Dr. Boardman Reed is one of the

world's greatest authorities upon hy-

giene, and a well-known student of cli-

mate. Diseases of the stomach

and the digestive organs have been his

special subjects, and it is anticipated

that he will make exhaustive studies

along his particular line. He is a man

of independent means, and gives up a

large practice to come to this Coast.

While he does not expect to retire from

active work, he will devote more at-

tention to medical literature and study

than formerly.

JUNE WEATHER QUITE NORMAL.

The meteorological summary for

June, compiled by A. B. Wolke, of the

Weather Bureau, shows that during the

month there were sixteen clear days, nine

partly cloudy and five cloudy. The

highest temperature in the month was

99 degrees on the 18th and the lowest, 61

degrees on the 7th. The mean tempera-

ture for the thirty days was 67.1 deg.

against 66.8, the average mean tem-

perature for June for the twenty-two

years ending last December. The

prevailing direction of the wind was

from the south and the average hourly

velocity was 5.5 miles. The weather

as a whole during the month was

quite normal, almost compared with

the records of the June months for the

past twenty-two years.

SMALL FIRE; MAN HURT.

M. Turbell, an employee of the H.

Raphael Company, South Main street

between Fifth and Sixth streets, fell

over a box on the third floor of the

building at 10:30 o'clock last night and

sustained a laceration of the right

knee. There had been a small fire in

the place shortly before and the fire-

men had moved several boxes of glass

into the aisles. Turbell stumbled over

the box. He was dressed at the Re-

GRAFTON LATES.

Local Citrus Movements.

Shipments of citrus fruits from

Southern California for June 30

consisted of twenty-one oranges, and

fifteen lemons. This makes a total for

the month of 23,732 cars, of which

23,732 cars were lemons. For the

same period last season, 27,732 cars

were shipped, of which 20,732 cars were

lemons.
